IMPORTANT: Read all material below

As a protective measure to slow the spread of COVID-19, military installations may need to restrict access or close certain facilities or services.

In an effort to limit personal contact, the Fort Campbell Fish and Wildlife program will transition to an online checkout system for deers harvested during the Deer Season. The check station will be closed. Simply complete the harvest data collection questions asked as you check out of the assigned hunting area.

By acknowledging terms below, you agree that you are aware of newly implemented and mandatory harvest reporting for 2020 Deer Season in midst of changes cause by COVID19 prevention policies.

Persons cannot come on post if:

- They have returned from traveling outside the continental US (AK and HI are outside continental US) or a commercial Cruise line within past two weeks.
- Currently exhibiting any COVID-19 symptoms such as fever, cough, or shortness of breath. If conditions change, additional restrictions may be implemented.
- Within the past two weeks have been in close contact with a known positive case of COVID-19.

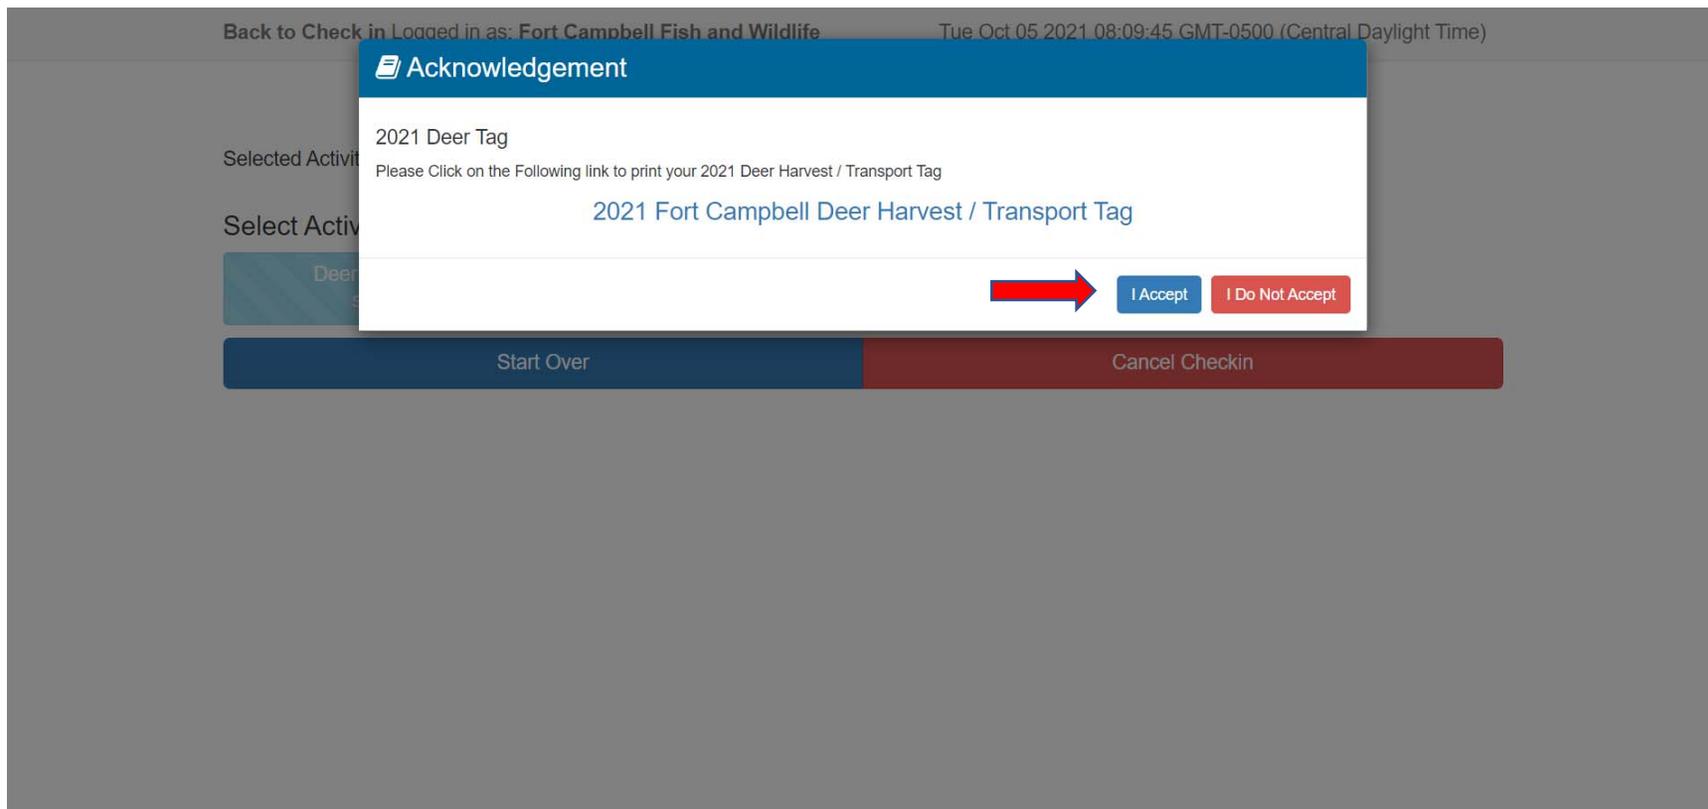

Hunters must use the 2020 Deer Harvest Tag as their harvest tag to transport a harvested deer. This tag must remain with the harvested deer while in the hunter's possession. At area assignment check out, hunters must use the online harvest report through the iSportsman Portal to report specific information regarding harvested deer.

Hunters must complete mandatory harvest reporting upon check-out of hunting area.

All regulations pertaining to deer hunting may be found on our iSportsman Portal. See CAM Reg 200-4 for detailed hunting regulations.

STEP 6: Accept 2021 Deer Tag Acknowledgement, as indicated by the red arrow.

STEP 7: Select area. Hunting only one area; Fishing up to three areas.
