KENTUCKY DEPARTMENT OF FISH & WILDLIFE RESOURCES

Serving People, Conserving Fish & Wildlife

Commonwealth of Kentucky

Andy Beshear, Governor

FISH AND WILDLIFE COMMISSION (January 2023)

1st District: Dr. Robin Floyd, Murray
2nd District: Brian Fisher, Bowling Green
3rd District: Ralph Swallows, Louisville
4th District: vacant
5th District: Josh Lillard, Hebron
6th District: Jerry Ferrell, Richmond
7th District: Paul Horn, Prestonsburg
8th District: Doug Morgan, Morehead
9th District: Dr. Karl Clinard, Somerset

Fish, wildlife and boating regulations are recommended by the Commission (board) and approved by the Kentucky legislature. Commission members are experienced and active anglers and hunters, who serve 4-year terms after being publicly nominated by peers in their geographic districts, appointed by the Governor, and confirmed by the Kentucky Senate.

Learn more or contact your district Commission member at fw.ky.gov/More/Pages/Commission.aspx

KENTUCKY DEPARTMENT OF FISH AND WILDLIFE RESOURCES

Commissioner: Rich Storm
Deputy Commissioner: Brian Clark
Deputy Commissioner: Gabe Jenkins
Wildlife Director: Ben Robinson
Fisheries Director: Dave Dreves
Law Enforcement Director: vacant
Information & Education Director: Gabe Jenkins
Administrative Services Director: Lisa Cox
Engineering, Infrastructure and
Technology Director: Michael Scott
Marketing Director: Brian V. Blank

FISHING AND BOATING GUIDE

Editor: Lee McClellan
Art/Design Director: Adrienne Yancy
Contributors: Dane Balsman, Dave Dreves,
Mike Hardin, Josh Pennington, Jeff Ross

Kentucky Fish and Wildlife is funded through the sale of hunting and fishing licenses, boat registration fees and related grants. The Department conserves, protects and enhances all fish and wildlife species, their habitats, public wildlife areas and waterways for the benefit of those resources and for public enjoyment.

Have a suggestion or question?
Kentucky Fish and Wildlife welcomes your questions or input.

NEW THIS YEAR

The items highlighted **in bright blue throughout this guide** are a quick overview of the changes to this year's regulations.

- There are new black bass regulations, please refer to the Special Regulations section starting on page 7 of this guide for more details.
- The special regulations for trout on Poor Fork of Cumberland River in Harlan County and Paintsville Lake tailwater in Johnson County are now removed.
- The muskellunge minimum size limit is now 40 inches at Cave Run Lake in Bath, Menifee, Morgan and Rowan

counties, Dewey Lake in Floyd County and Green River Lake in Adair and Taylor counties.

- Swift Camp Creek (Wolfe County): The catch and release trout season now ends on March 31.
- Carr Creek Lake (Knott County): There is a 15 fish daily creel limit on blue and channel catfish, only 1 fish may be longer than 25 inches.
- Bow fishing is now prohibited at: Lake Carnico (Nicholas County), Carpenter Lake (Davies County), Clear Creek Lake (Bath County), Greenbo Lake (Greenup County) and Lake Reba (Madison County).

KENTUCKY FISHING & BOATING GUIDE

Obie Williams photo

ABOUT THIS GUIDE

This is a **SUMMARY** of the laws regarding fishing and boating. This guide is intended solely for informational use. It is not a reprint of any referenced statute or regulation in its entirety and should not be used as such. Questions about the information contained in this guide should be directed to the Kentucky Department of Fish and Wildlife Resources **BEFORE** engaging in the activities referenced. Actual wording of any Kentucky Revised Statute (KRS) or Kentucky Administrative Regulation (KAR) can be viewed at legislature.ky.gov.

OTHER GUIDES AVAILABLE

Kentucky Fish and Wildlife also produces regulation guides for spring and fall hunting and trapping. Call 1-800-858-1549 weekdays, look for a copy of these regulation guides where hunting licenses are sold, or log on to fw.ky.gov.

*Peabody, LBL and Otter Creek permits, elk drawing application, elk quota hunt permit, out-of-zone elk permit, bear permit, federal duck stamp and trapping license not included. An additional deer permit is not included with a Sportsman's License. Kentucky's license year begins March 1 and continues through the last day of February. New licenses are required annually, except for the 3-year fishing license. A 1-day or 7-day hunting license is valid only for the period shown on license. Resident and nonresident youths under the age of 12 are not required to purchase licenses or permits (except the elk drawing application).

LICENSES & PERMITS

WHO NEEDS A LICENSE?

(KRS 150.010, 150.170)

All persons must fill out and carry the proper license and permit to fish any Kentucky waters **except the following** (for permit requirements see "Trout Permit" on this page):

- The resident owner of farmlands, their spouse and dependent children may fish on their land without a license. Tenants, their spouses and dependent children may fish without a license on farmlands where they live and work.
- Resident servicemen on furlough for more than three days may fish state-wide without a license, but must carry proper identification and papers showing furlough status.
- Residents and nonresidents ages 15 and younger.
- Persons fishing on the first Saturday and Sunday in June (**June 3-4, 2023**) during Free Fishing Days are not required to have a license or permit.
- Persons fishing within the boundaries of Mammoth Cave National Park.

A resident is anyone who has established permanent and legal residence in Kentucky and resided here at least 30 days immediately prior to applying for a license. Full-time students enrolled in a Kentucky educational institution for at least a six-month term and service personnel on permanent assignment in

Kentucky are also classified as residents. All others are considered non-residents for licensing purposes.

TROUT PERMIT (301 KAR 1:201)

Unless license exempt, anglers who intend to keep trout must have a trout permit (\$10). A trout permit is included with the resident senior/disabled sportsman's license and resident sportsman's license. All licensed anglers fishing the portion of the Cumberland River from Wolf Creek Dam to the Tennessee state line, its tributaries up to the first riffle and all of Hatchery Creek are required to possess a trout permit. (See the Trout section in this guide for details and for a complete list of waters where trout are present.)

RESIDENT SPORTSMAN'S LICENSE (SAVE \$67!)

Available to Kentucky residents only, the Sportsman's License includes a combination hunting and fishing license, spring turkey permit, fall turkey permit, statewide deer permit, state waterfowl permit (which also covers dove and other migratory bird hunting) and trout permit. Peabody and LBL permits, trapping license, an elk lottery application, elk quota hunt permit (if drawn), out-of-zone elk permit, bear permit and bonus deer permits must be purchased

License expiration

Annual license/permit authorization numbers are valid from the date of purchase through the last day in February. New licenses are required annually March 1. A temporary fishing license is valid for the period shown on the license. KRS 150.175

separately. A federal duck stamp (available at post offices) is required for waterfowl hunting.

PAY LAKES (KRS 150.660)

A person fishing in a pay lake licensed by the Kentucky Department of Fish and Wildlife Resources needs either a Kentucky fishing license or a free permit issued by the operator.

FREE FISHING DAYS (301 KAR 1:210)

Every year Kentucky offers free fishing days the first weekend in June (**June 3-4, 2023**). On free fishing days no license (including the Kentucky trout permit) is required of residents or nonresidents to fish any Kentucky waters. All other fishing regulations remain in effect. Free fishing days are offered to promote fishing and National Fishing Week. Take someone fishing!

HOW TO BUY LICENSES and PERMITS

When buying a license or permit the angler's date of birth and Social Security number must be provided.

If you have licensing questions, call Kentucky Fish and Wildlife at 1-800-858-1549, weekdays from 8 a.m. to 4:30 p.m. (Eastern time).

ONLINE

All Kentucky hunting and fishing licenses and permits, except a Joint Married Couple Fishing License, can be purchased through the secured Kentucky

Fish and Wildlife website at fw.ky.gov.

Anglers purchasing licenses or permits online must pay with a Visa, Mastercard, American Express or Discover card, or a Kentucky Fish and Wildlife gift certificate. Gift certificates are sold online only at fw.ky.gov.

Anglers who buy licenses or permits online will not be mailed a paper license or permit but will receive an authorization number. The authorization number or a computer printout of the license or permit and a picture ID must be carried

in the field while fishing.

IN PERSON

Licenses and permits can be purchased at various locations throughout the state. A list of license agents can be viewed online at fw.ky.gov.

BY PHONE

Licenses and permits are not currently available by phone. Please go online to the Kentucky Fish and Wildlife website at fw.ky.gov for updates.

LOST LICENSES and PERMITS

Persons who need a replacement license or permit have three options:

1. Print a free replacement online at fw.ky.gov. Access "My Profile," then click "view/print license."
2. Purchase the same type of license or permit from any license vendor,
3. Send \$5, your name, address, date of birth and Social Security number, and

ask them for a license refund form (or print one at fw.ky.gov), fill it out and send it to: KDFWR Licensing, #1 Sportsman's Lane, Frankfort, KY 40601. You will receive a refund minus a \$5 handling fee.

which license(s) or permits you lost to: KDFWR Licensing, #1 Sportsman's Lane, Frankfort, KY 40601. The department will replace the license/permit once verification of original purchase occurs. Replacement may take up to 3 weeks.

RESIDENT SENIOR OR DISABLED SPORTSMAN'S LICENSES

Kentucky resident seniors (ages 65 and older) and Kentucky residents with qualified disabilities may purchase discounted "sportsman's" type licenses which include: annual fishing and hunting licenses, permits for deer, turkey, migratory bird/waterfowl and trout and additional deer permits. Disabled persons must first receive a disability license authorization (good for three years) from Kentucky Fish and Wildlife to buy the disability license. Disability eligibility includes:

- Kentucky residents certified totally and permanently disabled by the federal Social Security Administration, a state workers' compensation board, the Kentucky Teachers' Retirement System or the U.S. Railroad Retirement Board.
- Kentucky resident employees of the U.S. Office of Personnel Management declared totally and permanently disabled by a recognized authority.
- Kentucky resident veterans at least 50 percent disabled as the result of a service-connected disability.

Persons with disabilities listed above must first obtain disability authorization from Kentucky Fish and Wildlife.

You must produce proof of disability through one of the following agencies to obtain a disability authorization:

- **Federal Social Security Administration:** Any documentation from Social Security certifying you are disabled and receiving benefits is acceptable. Forms should not be more than 6 months old. A Benefit

Verification Letter is preferred. To get a Benefit Verification Letter, contact your local Social Security office, call 1-800-772-1213 or go online to www.socialsecurity.gov/myaccount. All benefit letters, whether created online or obtained from a local office, must indicate disability qualification and include name, address, date of birth, last 4 digits of your social security number and benefit amount. **New applicants** are required to contact Kentucky Fish and Wildlife at 1-800-858-1549 during normal business hours to process an application.

- **Veterans Affairs:** Contact your local VA office and request a letter that verifies you are at least 50 percent disabled as a result of a service-connected disability. The letter should also have your current address and your Social Security number.
- **State Workers' Compensation Board:** Request an application from Kentucky Fish and Wildlife and send the completed form to the state Workers' Compensation Board.

• U.S. Railroad Retirement Board:

Contact the Board and request a letter stating you are permanently and totally disabled and show current address.

• Kentucky Teachers' Retirement System:

Contact the Teachers' Retirement System and request written documentation stating you are on disability retirement and show a current address.

• U.S. Office of Personnel Management:

Contact the federal Office of Personnel Management and obtain certification of employment, obtain certification of being 100 percent disabled from a recognized authority, and show a current address.

To send disability paperwork to Kentucky Fish and Wildlife:

- Use the "MyProfile" link at fw.ky.gov.
- By mail: KDFWR Disability License, #1 Sportsman's Lane, Frankfort, KY 40601
- By fax: (502) 564-9845

Disability authorization cards are no longer issued. To print copies of authorization or licenses, access your "MyProfile" account at fw.ky.gov. After receiving disability authorization, the license system will automatically allow purchase of a Disabled Sportsman's License.

Disability authorization is not a license. Proof of authorization (or authorization number) must be presented to license sellers at the time of purchase. License vendors cannot sell a disability license using expired authorization. The Senior or Disabled Sportsman's License is valid through the end of February each year.

Q: How long is disability authorization valid?

A: Authorization is valid for three years (check expiration date). Customers must renew the authorization when it expires. Those with disability authorization through Veterans Affairs, U.S. Railroad Retirement Board or U.S. Office of Personnel Management may call 1-800-310-1873 to update authorization.

FISHING REGULATIONS

STATEWIDE REGULATIONS

Some waterbodies have different size and daily creel limits, so please refer to the "Special Fishing Regulations" section on page 6 for more details. There are no size or daily creel limits for rough fish, unless statewide or special regulations apply. For daily creel limit and fishing license purposes, one fishing day equals one calendar day. Except for trout, anglers may cull fish of a particular species until reaching the daily creel limit. Any additional fish caught in excess of the daily creel limit must be released immediately.

FISH SPECIES		Daily Creel Limit	Possession Limit	Minimum Size Limit
BLACK BASS	Largemouth Bass	6*	12*	12"
	Smallmouth Bass	6*	12*	12"
	Kentucky (Spotted) Bass	6*	12*	none
	Coosa Bass	6*	12*	none
	Rock Bass	15	30	none
	Redear Sunfish	20	40	none
	Walleye, Sauger, and their Hybrids	6*	12*	14"
	Muskellunge	1	2	30"
	Chain Pickerel	5	10	none
	White & Hybrid Striped Bass	15**	30**	none**
	Striped Bass	5	10	15"
	Yellow Bass	none	none	none
	Crappie (Black & White)	20*	40*	none
	Paddlefish	2	4	none
	Rainbow Trout	8	16	none
	Brown Trout	1	2	16"
	Cutthroat Trout	1	2	20"
	Brook Trout	Catch and release only***		
	Lake Sturgeon	Catch and release only		
	Alligator Gar	Catch and release only		
TROPHY CATFISH	Channel Catfish 28" and above	1	2	28"
	Blue & Flathead Catfish 35" and above	1 each	2 each	35"
	Channel Catfish below 28"	none	none	none
	Blue & Flathead Catfish below 35"	none	none	none

* Singly or combined; a total of these species ** No more than 5 fish in the daily creel limit may be more than 15 inches long.

*** Except for the Cumberland River downstream of Wolf Creek Dam and the upper section of Hatchery Creek, see Special Regulations section for details.

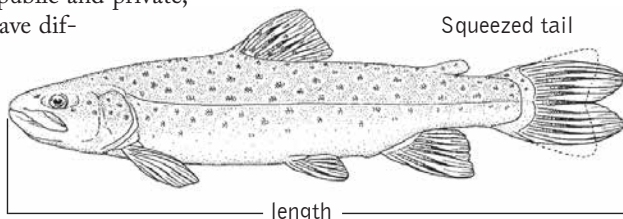

STATEWIDE SIZE and DAILY CREEL LIMITS (301 KAR 1:060, 1:201; KRS 150.010)

Fishing season is open year-round in Kentucky, except on waterfowl refuges and as otherwise noted in this guide. Statewide size and creel limits apply to all Kentucky waters, public and private, except some waters have different limits (see "Special Fishing Regulations").

MEASURING FISH (301 KAR 1:201)

Measure all fish from the tip of the lower jaw (closed) to the tip of the tail with fish laid flat on rule with tail lobes squeezed together. Fish not of legal size must be returned immediately to the

waters from which they were taken in the best possible physical condition.

Q: How is a daily creel limit different than a possession limit?

A: The daily creel limit is the number of a particular sport fish species you may keep in one day's fishing. A possession limit is two times the daily creel limit for all fish species with a daily creel limit, excluding previously processed fish.

SPECIAL FISHING REGULATIONS

(301 KAR 1:080, 1:180, 1:201, 2:222
4:100, KRS 150.010, 150.025)

SPECIAL REGULATION WATERS LISTED ALPHABETICALLY

The public waters listed below have different size and/or daily creel limits than statewide regulations allow. State-wide size and daily creel limits apply unless otherwise mentioned below. Special boating regulations are listed in the

Boating section of this guide.

Some privately owned waters may have special size and daily creel limits as posted by signs.

FINs LAKES:

Lakes in the Fishing In Neighborhoods (FINs) program have uniform regulations for daily creel and size limits:

- **Rainbow Trout:** 5-fish daily limit.

Trout stamp required if you intend to

keep trout.

- **Catfish:** 4-fish daily limit.
- **Sunfish:** 15-fish daily limit.
- **Largemouth Bass:** 15-inch minimum size limit, 1-fish daily limit.
- Possession or use of live shad for bait is prohibited.

BARK CAMP CREEK Whitley County

All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

BARKLEY, KENTUCKY LAKES (and their connecting canal)

- Crappie: 10-inch minimum size limit.
- Largemouth and Smallmouth Bass:

15-inch minimum size limit.

BARKLEY TAILWATER – See Cumberland River

BARREN RIVER and all tributaries upstream of Barren River Lake; downstream of the lake to Lock and Dam 1 and all tributaries

- Walleye: 2-fish daily creel limit; 18- to 26-inch protective slot limit. All wall-

eye caught from 18 to 26 inches long must be immediately released.

- Smallmouth Bass: 15-inch minimum size limit.

BARREN RIVER LAKE

The boundaries of Barren River Lake are from the dam upstream to the KY 100 bridge, Long Creek to the KY 100 bridge, Beaver Creek to the KY 1297 bridge, Skaggs Creek to the Mat-

thews Mill Road bridge and Peter Creek to the Peter Creek Road bridge.

- **Blue and Channel Catfish:** 15-fish aggregate daily creel limit, only 1 fish may be longer than 25 inches.
- **Crappie:** 10-inch minimum size limit.
- **Largemouth and Smallmouth Bass:** 15-inch minimum size limit.
- **Walleye:** 2-fish daily creel limit; 18- to 26-inch protective slot limit. All walleye caught from 18 to 26 inches long must be immediately released.

BEAVER CREEK from the KY 90 bridge upstream to the KY 200 bridge **Wayne County**

All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

BEAVER LAKE **Anderson County**

Possession or use of live shad for bait is prohibited.

- **Largemouth Bass: 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.**

BEECH FORK RESERVOIR **Powell County**

- **Bluegill:** 15-fish daily creel limit.
- **Largemouth Bass:** 15-inch minimum size limit.

BERT COMBS LAKE **Clay County**

Possession or use of live shad for bait is prohibited.

- **Largemouth Bass: 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.**

BEULAH LAKE **Jackson County**

- **Largemouth Bass: 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.**

BIG BONE CREEK **Boone County**

All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

BOLTZ LAKE **Grant County**

Possession or use of live shad for bait is prohibited.

- **Largemouth Bass: 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.**

BRIGGS LAKE **Logan County**

Possession or use of live shad for bait is prohibited.

BUCKHORN LAKE

- **Largemouth and Smallmouth Bass:** 15-inch minimum size limit.
- **Muskellunge:** 40-inch minimum size limit.
- **Crappie:** 9-inch minimum size limit.

CANE CREEK **Laurel County**

All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

CARNICO LAKE **Nicholas County**

- **Largemouth Bass:** 15-inch minimum size limit.
- **Bluegill and other sunfish:** 15-fish daily creel limit.

CARR CREEK LAKE

- **Crappie:** 9-inch minimum size limit.
- **Largemouth and Smallmouth Bass:** 15-inch minimum size limit.
- **Blue and Channel Catfish: 15-fish aggregate daily creel limit, only 1 fish may be longer than 25 inches.**

CARTER CAVES STATE PARK LAKE (also called Smoky Valley Lake)

Fishing during daylight hours only.

Possession or use of live shad for bait is prohibited.

- **Largemouth Bass:** 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.

CASEY CREEK **Trigg County**

All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

CAVE RUN LAKE

Gigging and snagging prohibited in lake and all tributaries up to the first riffle or upper boundary as listed below. Lake upper boundaries: Scott's Creek to the KY 801 culvert; Beaver Creek to the KY 1274 culvert; North Fork Creek to the confluence of Craney Creek; Ramey Creek to include pool of water north of KY 801; Licking River to KY 722 bridge.

- **Largemouth Bass: 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be released immediately.**
- **Smallmouth Bass:** 18-inch minimum size limit.
- **Muskellunge: 40-inch minimum size limit.**

CEDAR CREEK LAKE **Lincoln County**

- **Largemouth Bass:** 20-inch minimum size limit, 1-fish daily creel limit.

CHIMNEY TOP CREEK **Wolfe County**

Only artificial baits may be used.

CLEAR CREEK **Bell County**

All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

CLEAR FORK **Logan and Warren counties**

Catch and release for all sport fish.

CORINTH LAKE **Grant County**

Possession or use of live shad for bait is prohibited.

- **Largemouth Bass: 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.**

CUMBERLAND GAP NATIONAL HISTORICAL PARK

(301 KAR 1:035)

Special fishing regulations are in effect on Cumberland Gap National Historical Park. For complete fishing information on this area contact: Cumberland Gap National Historical Park, P.O. Box 1848, Middlesboro, KY 40965, phone (606) 248-2817.

CUMBERLAND RIVER upstream from Cumberland Falls and all tributaries:

- **Walleye:** 2-fish daily creel limit; 18- to 26-inch protective slot limit. All walleye caught from 18 to 26 inches long must be immediately released.
- **Smallmouth Bass:** 15-inch minimum size limit.

CUMBERLAND RIVER from Wolf Creek Dam to the Tennessee state line

All licensed anglers must possess a trout permit on this portion of Cumberland River. This includes Hatchery Creek and all tributaries up to the first riffle.

Anglers may not attract or chum trout with bait, corn or other attractants designed to draw numbers of trout to a specific area. This includes all tributaries up to the first riffle and in Hatchery Creek. For additional regulations on Hatchery Creek, refer to the Hatchery Creek section on page 10.

- **Brown Trout or Cutthroat Trout:** 20-inch minimum size limit, 1-fish daily creel limit, also applies to all tributary streams, except Hatchery Creek.
- **Rainbow Trout:** 15- to 20-inch protective slot limit. All trout caught between 15 and 20 inches in length must be immediately released. Five fish daily limit, only one rainbow trout may be longer than 20 inches. Also applies to all tributary streams, except Hatchery Creek.
- **Brook Trout:** 1-fish daily creel limit with a 15-inch minimum size limit. Also applies to all tributary streams, except Hatchery Creek.
- **Lake Sturgeon:** Catch and release only.

CUMBERLAND RIVER from Lake Barkley Dam downstream to confluence with Ohio River

Gigging and snagging regulations along with special regulations for the Cumberland River below Lake Barkley can be found on page 14. Fishing prohibited at the mouth of the lock chamber at Barkley Dam as designated by signs.

DALE HOLLOW LAKE

- **Crappie:** 10-inch minimum size limit, 15-fish daily creel limit.
- **Black Bass creel:** includes largemouth, smallmouth and Kentucky (spotted) bass – 5 fish daily creel limit on black

bass singly or combined, only two of which may be smallmouth bass.

- **Largemouth Bass:** 15-inch minimum size limit.
- **Smallmouth Bass:** 16- to 21-inch protective slot limit. One fish over 21 inches and one fish under 16 inches may be kept daily.
- **Sauger:** 10-fish daily creel limit.
- **Rainbow and Brown Trout:** 7-fish aggregate daily creel limit.
- **Walleye:** 16-inch minimum size limit, 5-fish daily creel limit.

DEWEY LAKE

- **Largemouth and Smallmouth Bass:** 15-inch minimum size limit.
- **Blue and Channel Catfish:** 15-fish aggregate daily creel limit, only 1 fish may be longer than 25 inches.
- **Muskellunge:** 40-inch minimum size limit.

DIX RIVER from Herrington Lake Dam downstream for two miles

Only artificial baits shall be used.

DOE RUN LAKE**Kenton County**

Possession or use of live shad for bait is prohibited.

- **Largemouth Bass:** 15-inch minimum size limit.
- **Channel Catfish:** Four fish daily creel limit.

DOG FORK**Wolfe County**

Only artificial baits with a single hook shall be used. Brook trout must be immediately released.

EAST FORK INDIAN CREEK**Menifee County**

All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

ELKHORN CREEK in Franklin County from confluence of North and South forks downstream to Kentucky River

- **Largemouth and Smallmouth Bass:** 12- to 15-inch protective slot limit. Largemouth and smallmouth bass caught between 12 and 15 inches in length must be immediately released.
- For regulatory purposes, the boundary of Elkhorn Creek is a permanent

marker just below the first shoal upstream from its confluence with the Kentucky River.

ELK SPRING CREEK**Wayne County**

All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

ELMER DAVIS LAKE**Owen County**

Possession or use of live shad for bait is prohibited.

- **Largemouth Bass:** 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.

FISHTRAP LAKE

- **Largemouth and Smallmouth Bass:** 15-inch minimum size limit.
- **Crappie:** 9-inch minimum size limit.
- **Blue and Channel Catfish:** 15-fish aggregate daily creel limit, only 1 fish in the daily creel limit may be longer than 25 inches.
- **Walleye:** 2-fish daily creel limit; 18- to 26-inch protective slot limit. All walleye caught from 18 to 26 inches long must be immediately released.

FLOYD'S FORK from U.S. 60 bridge downstream to U.S. 150 bridge**Jefferson County**

- **Largemouth and Smallmouth Bass:** 15-inch minimum size limit.
- **Rainbow Trout:** All trout caught from Oct. 1 through Mar. 31 must be immediately released and only artificial baits shall be used during this period.

GENERAL BUTLER**STATE PARK LAKE****Carroll County**

Possession or use of live shad for bait is prohibited.

- **Largemouth Bass:** 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.
- **Channel Catfish:** 4 fish daily creel limit.

Did you know?

Camping is prohibited on KDFWR owned or managed lakes except as designated by signs.

GOLDEN POND (Land Between The Lakes National Recreation Area)

- **Channel Catfish:** 15-inch minimum size limit, 5-fish daily creel limit.

GRAYSON LAKE

- **Largemouth and Smallmouth Bass:** 15-inch minimum size limit.

GREENBO LAKE**Greenup County**

Possession or use of live shad for bait is prohibited.

- **Bluegill and other sunfish:** 15-fish daily creel limit.
- Areas marked by signage and buoys near the Jesse Stuart Lodge are periodically closed to fishing.

GREEN RIVER LAKE

Lake upper boundaries: Green River to Snake Creek Boat Ramp; Robinson Creek to KY 76 bridge; Casey Creek to Arnolds Landing Boat Ramp.

- **Crappie:** 9-inch minimum size limit.
- **Muskellunge:** 40-inch minimum size limit.

GREEN RIVER LAKE TAILWATER from Green River Lake Dam and extending downstream to the end of the concrete wall**Taylor County**

Fishing shall be limited to rod in hand using either: (a) An artificial bait with a single hook; or (b) Live bait attached to a single hook.

GUNPOWDER CREEK**Boone County**

All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

HATCHERY CREEK**Russell County**

All licensed anglers must possess a trout permit to fish Hatchery Creek.

- **Brook, Rainbow, Cutthroat and Brown Trout: Upper section:** As designated by signs, 5-trout aggregate daily creel limit, no minimum size limit.

Lower section: Catch and release only and only artificial baits may be used. The lower boundary of Hatchery Creek is delineated as a straight line between opposite points where Hatchery Creek meets the main stem

of the Cumberland River.

HIGHSPLINT LAKE**Harlan County**

- **Largemouth bass:** 20-inch minimum size limit; 1-fish daily creel limit.

KENTUCKY, BARKLEY LAKES (and their connecting canal)

- **Crappie:** 10-inch minimum size limit.
- **Largemouth and Smallmouth Bass:** 15-inch minimum size limit.

KENTUCKY LAKE TAILWATER – see Tennessee River**KENTUCKY RIVER, upstream of Lock and Dam 14, the North Fork and tributaries including Carr Fork below Carr Creek Lake along with the Middle and South Forks and all tributaries**

- **Walleye:** 2 fish daily creel limit; 18- to 26-inch protective slot limit. All walleye caught from 18 to 26 inches long must be immediately released.
- **Smallmouth Bass:** 15-inch minimum size limit.

KENTUCKY RIVER WMA BOONE TRACT, Henry County Benjy Kinman Lake:

- **Catfish:** 12-inch minimum size limit, no daily creel limit.
- Idle speed only.

Prather Pond and 6-acre pond:

- **Catfish:** 12-inch minimum size limit, 4-fish daily creel limit.

Prather Pond, 6-acre pond and 15-acre pond

- **Bluegill and other sunfish:** 15-fish daily creel limit.
- Trolling motor only.

LAKE BLYTHE**Christian County**

- **Largemouth Bass:** 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.

LAKE CHUMLEY**Lincoln County**

Fishing during daylight hours only.

LAKE CUMBERLAND

The boundaries of Lake Cumberland are defined as Cumberland Falls on the Cumberland River, Devils Jump

on the Big South Fork, the Narrows of Rockcastle River and Laurel River Lake Dam on Laurel River.

- **Crappie:** 10-inch minimum size limit.
- **Lake Sturgeon:** Catch and release only.
- **Largemouth Bass:** 15-inch minimum size limit.
- **Smallmouth Bass:** 18-inch minimum size limit.
- **Striped Bass:** 22-inch minimum size limit, 2-fish daily creel limit.

LAKE JERICOH**Henry County**

Possession or use of live shad for bait is prohibited.

- **Largemouth Bass:** 15-inch minimum size limit.

LAKE MALONE

- **Largemouth Bass:** 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.

LAKE PENNYRILE**Christian County**

- **Largemouth Bass:** 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.

LAKE REBA**Madison County**

Possession or use of live shad for bait is prohibited.

LAKE SHELBY**Shelby County**

- **Largemouth Bass:** 15-inch minimum size limit.
- **Channel Catfish:** 4 fish daily creel limit.

LAND BETWEEN THE LAKES NATIONAL RECREATION AREA

(301 KAR 1:031)

Special fishing regulations are in effect for ponds and small lakes within Land Between The Lakes National Recreation Area. For complete fishing information on this area, anglers should contact: Land Between The Lakes National Recreation Area, Golden Pond, KY 42231, phone (270) 924-2000.

LAUREL RIVER LAKE

- **Largemouth Bass:** 15-inch minimum size limit.
- **Smallmouth Bass:** 18-inch minimum size limit, 2 fish daily creel limit.

- **Crappie:** 9-inch minimum size limit, 15-fish daily creel limit.

LEARY LAKE

Grant County

Fishing during daylight hours only.

LEBANON CITY LAKE – see Fagan Branch Lake

LEVISA FORK and all tributaries upstream of Fishtrap Lake

- **Walleye:** 2 fish daily creel limit; 18- to 26-inch protective slot limit. All wall-eye caught from 18 to 26 inches long must be immediately released.

LINCOLN HOMESTEAD STATE PARK LAKE

Washington County

Fishing during daylight hours only.

Possession or use of live shad for bait is prohibited.

- **Channel Catfish:** 4 fish daily creel limit.
- **Largemouth Bass:** 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.

MAMMOTH CAVE NATIONAL PARK

Special fishing regulations are in effect for ponds, streams and Green River within Mammoth Cave National Park. For complete fishing information on this area, anglers should contact: (270) 758-2180.

MARION COUNTY LAKE

MARTIN'S FORK LAKE and all tributaries

- **Walleye:** 2-fish daily creel limit; 18- to 26-inch protective slot limit. All wall-eye caught from 18 to 26 inches long must be immediately released.

McNEELY LAKE

Jefferson County

Possession or use of live shad for bait is prohibited.

- **Largemouth Bass:** 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.

MILL CREEK LAKE

Powell and Wolfe counties

Possession or use of live shad for

bait is prohibited.

- **Largemouth Bass:** 15-inch minimum size limit.

NEW HAVEN OPTIMIST LAKE

Nelson County

- **Largemouth Bass:** 15-inch minimum size limit.
- **Channel Catfish:** 4 fish daily creel limit.

NOLIN RIVER LAKE

Lake upper boundary is the Wheelers Mill Road bridge in the Nolin River arm and to the KY 728 bridge in the Bacon Creek arm.

- **Crappie:** 9-inch minimum size limit.
- **Largemouth and Smallmouth Bass:** 15-inch size limit.

OHIO RIVER – see also, “Bordering Waters” page 15

- **White Bass, Striped Bass and their Hybrids:** 30 fish daily creel limit, only 4 fish may be 15 inches or longer.

OTTER CREEK

Meade County

- **Largemouth and Smallmouth Bass:** 12- to 15-inch protective slot limit. All largemouth and smallmouth bass caught between 12 and 15 inches in length must be immediately released.

All trout caught in Fort Knox Military Reservation and in Otter Creek Park from Oct. 1 through Mar. 31 must be immediately released and only artificial baits shall be used during this period. There is a one-mile section of Otter Creek as posted by signs in Fort Knox Military Reservation where trout fishing is open to statewide regulations. Fort

Q: Is fishing allowed around a dock or a marina?

A: It depends. Public marinas on U.S. Army Corps of Engineers Lakes have contractual agreements that address lease space on public waters. The Corps presently allows the marina owners or operators to post signs that prohibit fishing within 150 feet of their floating structures. These agreements do not prohibit a person from fishing in their boat rental slip. This policy does not apply to privately owned boat docks on Corps lakes.

Knox Military Reservation requires the purchase of a \$10 permit to fish and is closed to fishing on Tuesdays. Anglers must check-in with the Fort Knox Hunt Control Office at (502) 624-2712 before each day's fishing.

PANBOWL LAKE

Breathitt County

- **Largemouth Bass:** 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.

PARCHED CORN CREEK

Wolfe County

Only artificial baits with single hook shall be used. Brook trout must be immediately released.

PEABODY WMA LAKES

In addition to a fishing license, a \$15.00 user permit is required of persons age 16 and over while on Peabody WMA. Permits can be purchased where fishing licenses are sold. Fishing open Mar. 16 – Oct. 14 on Goose, Island and South Lake, all other lakes open year-round.

PIKEVILLE CITY LAKE

Pike County

- **Largemouth Bass:** All largemouth bass caught must be immediately released.

ROCK CREEK from Tennessee state line downstream to Bell Farm bridge McCreary County

All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

ROCKCASTLE RIVER WMA

Pulaski County

All Ponds Collectively:

- **Largemouth Bass:** 15-inch minimum size limit, 1-fish daily creel limit.
- **Bluegill and other Sunfish:** 10-fish daily creel limit.
- **Catfish:** 4-fish daily creel limit.
- **Crappie:** 15-fish daily creel limit.

ROUGH RIVER LAKE

Lake upper boundary: Rough River to the KY 84 bridge.

- **Crappie:** 9-inch minimum size limit.
- **Largemouth and Smallmouth Bass:** 15-inch minimum size limit.

SHANTY HOLLOW LAKE Warren County

Possession or use of live shad for bait is prohibited.

SHILLALAH CREEK Bell County

Outside the Cumberland Gap National Park as posted, only artificial baits with single hook shall be used. Brook trout must be immediately released.

SPORTSMAN'S LAKES Franklin County

Fishing during daylight hours only.

SPURLINGTON LAKE Taylor County

Possession or use of live shad for bait is prohibited.

SWIFT CAMP CREEK Clifty Wilderness, Wolfe County

All trout caught from October 1 through **March 31** must be released immediately and only artificial baits shall be used during this period.

SYMPSON LAKE Nelson County

- **Largemouth Bass:** 15-inch minimum size limit.

TAYLORSVILLE LAKE

Lake upper boundary is Dry Dock Road on Salt River.

- **Crappie:** 10-inch minimum size limit, 15-fish daily creel limit.
- **Largemouth and Smallmouth Bass:** 15-inch minimum size limit.
- **Blue and Channel Catfish:** 15-fish aggregate daily creel limit, only 1 fish may be longer than 25 inches.

TENNESSEE RIVER from Kentucky Lake Dam downstream to confluence with Ohio River

Gigging and snagging regulations along with special regulations for the Tennessee River below Kentucky Lake can be found on page 14.

TRAMMEL CREEK Allen County

All trout caught from October 1 through March 31 must be immediately

released and only artificial baits shall be used during this period.

- **Rainbow Trout:** 5-fish daily creel limit.

WILLISBURG PARK POND Washington County

- **Channel Catfish:** 4-fish daily creel limit.
- **Largemouth Bass:** 15-inch minimum size limit.
- **Sunfish:** 15-fish daily creel limit, no minimum size limit.

WOOD CREEK LAKE Laurel County

- **Largemouth Bass:** 12- to 15-inch protective slot limit. All large-mouth bass caught between 12 and 15 inches in length must be immediately released.
- **Walleye:** 2-fish daily creel limit; 18- to 26-inch protective slot limit. All walleye caught from 18 to 26 inches long must be immediately released.

YATESVILLE LAKE

- **Largemouth and Smallmouth Bass:** 15-inch minimum size limit.

OTHER SPECIES

BULLFROGS (301 KAR 1:082)

The taking season for bullfrogs opens at noon on the third Friday in May (**May 19, 2023**) and runs through Oct. 31. If a gun or bow and arrow are used, a hunting license is required. If frogs are taken by pole and line, a fishing license is required. If frogs are taken by gig or by hand, then either a hunting or fishing license is valid. The daily noon-to-noon creel limit for bullfrogs is 15. The possession limit is 30.

TURTLES (301 KAR 1:058)

Anglers may take snapping turtles (except alligator snapping turtles) and softshell turtles year round by the same methods legal for taking rough fish species or with a turtle trap. Commercial fishing gear may not be used to take turtles. A hunting license is required when taking turtles by gun or by bow and arrow. Otherwise a fishing license is required. Turtles cannot be sold.

Turtle traps may be one of two kinds: either a barrel or drum with a tilt-

ing trigger board or a floating log raft with an enclosed twine or wire mesh bag. Turtle traps must be inspected daily. All turtles must be removed daily except one decoy turtle may remain. Any other species (except soft shelled and snapping turtles) caught in a turtle trap must be released unharmed.

GRASS CARP HARVEST PROHIBITED (301 KAR 1:201)

Harvesting grass carp is prohibited in any lake owned or managed by the Kentucky Department of Fish and Wildlife Resources. Anglers who catch a grass carp from one of these lakes must immediately return the fish to the water where it was caught. Grass carp are used to control aquatic vegetation.

LIVE BAIT FOR PERSONAL USE (301 KAR 1:130, 1:122)

No live fish, live bait fish or live bait organisms that are not native or established in Kentucky waters shall be bought, sold, possessed, imported, or in

any way used or released into waters of this Commonwealth. Blueback herring are not native to Kentucky and may not be imported or possessed in this state.

Holders of sport fishing licenses may take live bait from public waters and may possess up to 500 live bait fishes which include shad (except on lakes where possession or use of live shad is prohibited) and herring, 500 crayfish, 25 spring lizards or dusky salamanders, 5 frogs (other than bullfrogs), 5 tadpoles, 100 native lampreys, 500 other aquatic invertebrate organisms other than mussels, and any number of unshelled Asiatic clams. **Live wild caught Asian carp, herring and shad, as well as the species mooneye and goldeye, may only be used in the waters from which they were collected and cannot be transported by roadway.** A commercial license is required to take live bait from public waters open to commercial fishing for the purpose of selling.

Regardless of size or how obtained, it is illegal to use any sport fish for bait

(except redear sunfish less than 6 inches long). Live bait fishes are defined as redear sunfish less than 6 inches long and rough fish except blackside dace, pale-zone shiner, Cumberland darter, relict darter and tuxedo darter or any other federally threatened or endangered species. Also, see fw.ky.gov for a description of these protected fish species. Bluegills are not sport fish and may be taken for bait as described above.

Live bait may be taken with the following gear:

- **Dip Nets:** Maximum size of 3 feet in diameter is legal statewide.
- **Minnow Traps:** Maximum legal size statewide: 3 feet long, 18 inches in diameter, 1-inch openings for catching.
- **Seines:** Maximum legal size statewide: 10 feet long, 4 feet deep, ¼-inch mesh. Maximum legal size in the Ohio and Mississippi rivers and Kentucky and Barkley lakes: 30 feet long, 6 feet deep and ¼-inch bar mesh.
- **Sport Cast Nets:** Maximum sport cast net size is 20 feet in diameter with

maximum 1-inch bar mesh statewide except in the following waters. Sport cast nets prohibited in: 1) lakes having fewer than 500 surface acres, 2) Hatchery Creek in Russell County.

All sport fish incidentally taken while capturing live bait with seines, dip nets, cast nets or minnow traps must be released immediately unharmed into the water. Special regulations may apply to some waters.

NON-TRADITIONAL FISHING METHODS

SPORT FISHING TROT LINES, JUGGING and SET LINES (LIMB LINES)

(301 KAR 1:410; KRS 150.010)

A sport fishing trotline is a line with no more than 50 single or multi-barbed baited hooks that must be at least 18 inches apart. A sport fishing trotline must be set at least three feet below the water's surface. Jugging is fishing with a single baited line attached to any floating object. A jug line may have no more than one single or multi-barbed hook. A set line is a line with one single or multi-barbed hook. It may be attached to a tree limb, tree trunk, bank pole or other stationary object on the bank of a stream or impoundment.

One person may use no more than two sport fishing trotlines or 50 jug lines or 25 set lines at any one time. Each boat may not use more than 50 jug lines, but each occupant may use two sportfishing trotlines or 25 set lines. Each sport

fishing trotline, jug line or set line must be: 1) permanently labeled with the customer identification number provided on fishing licenses; 2) baited, checked and all fish removed at least once every 24 hours; 3) removed from water, bank or tree when fishing ceases.

Prohibited Areas: Sport fishing trotlines, jug lines or set lines may not be used within 200 yards below any dam. Sport fishing trotlines, jug lines or set lines are not allowed in Department owned/managed lakes having less than 500 surface acres, except those located on Ballard and Boatwright WMAs. No sport fishing trotlines are allowed within 700 yards below Kentucky Dam, the area between Barkley Dam and U.S. 62 bridge, or below the following Ohio River dams from the face of the dam to the end of the outer lock wall: Smithland, Newburgh, Cannelton, Markland, Meldahl and Greenup; McAlpine downstream to the K&I railroad bridge; J.T. Meyers (Uniontown) to the end of the outer lock wall and that portion of the split channel around the southern part of Wabash Island from the fixed weir dam to the first dike.

TICKLING and NOODLING

(301 KAR 1:410; KRS 150.010)

The tickling and noodling (hand grabbing) season for rough fish is June 1 through August 31, during daylight hours only. Tickling and noodling means taking fish directly by hand, or with the aid of a handled hook. These methods are permitted in all waters. The daily creel limit is 15 rough fish, no more than 5 of which can be catfish. Only one

blue or channel catfish longer than 25 inches may be kept daily on Barren River Lake, [Carr Creek Lake](#), Dewey Lake, Fishtrap Lake and Taylorsville Lake.

BOW FISHING (301 KAR 1:410)

Rough fish (except alligator gar and lake sturgeon) may be taken year-round by long bow, crossbow, compound bow, recurve bow or pneumatic air arrow launching device. Sport fish may not be taken with this gear. Arrows must have a barbed or retractable style point that has a line attached for retrieval. Catfish have a daily creel limit of 5 (in aggregate) and paddlefish have a daily creel limit of 2. There is no limit on other rough fish. Bow fisherman may fish within 200 yards of a dam, except they cannot fish by boat in boat restricted areas. Bow fishing is prohibited on the Cumberland River below Wolf Creek Dam downstream to the Tennessee line, including Hatchery Creek and all tributaries for ½ mile upstream of their confluence with the Cumberland River. **Bow fishing is also prohibited in Lake Carnico (Nicholas County), Carpenter Lake (Daviess County), Clear Creek Lake (Bath County), Greenbo Lake (Greenup County), and Lake Reba (Madison County).**

Persons using a bow and arrow for fishing must have the appropriate fishing license and may take rough fish from bank or boat. Bow anglers cannot sell paddlefish or their roe taken by bow and arrow. Paddlefish, catfish and shovelnose sturgeon taken by bow and arrow must be taken into immediate possession and cannot be culled. Fish taken by bow

Q: What is legal equipment for sport fish?

A: Anglers may legally take sport fish by hook and line in hand, rod in hand, jugging, setline or sport fishing trotline. There is no limit on number of rods/poles per angler.

No firearms

Fish may not be taken with use of a firearm.

must not be discarded on the bank. Bank disposal is littering and subject to a fine.

SPEAR FISHING (301 KAR 1:410)

Underwater spearing of rough fish with hand-held or mechanically propelled spear is permitted year-round, but only in lakes having 1,000 surface acres or more. All participants in this sport must be completely submerged while spear fishing. Only rough fish may be taken and the appropriate fishing license is required. The daily creel limit is 15 fish of which only 5 may be catfish.

GIGGING and SNAGGING FISH STATEWIDE

Gigging means spearing or impaling fish on any pronged or barbed instrument attached to the end of any rigid object. Snagging means taking fish or other aquatic animals by a rapid drawing motion (rather than enticement by bait) using a hand-held rod and attached line with one single or treble hook. A rod legal for snagging must be equipped with line, guides and a reel.

The statewide season for gigging and/or snagging rough fish is from February 1 through May 10. It is illegal to possess a gig on a stream or lake or in a boat from November 1 through January 31. A person may gig or snag fish from the bank of a stream during the day or night. Gigging and snagging is not legal from a platform or boat, except that gigging is legal from a boat on lakes 500 surface acres or larger and only during daylight hours.

There is a statewide daily creel limit of 2 paddlefish and 2 shovelnose sturgeon for either gigging or snagging. Harvest of shovelnose sturgeon is prohibited in the Mississippi River. All gigged or snagged paddlefish and shovelnose sturgeon must be taken into possession and cannot be culled or released. Anglers must cease gigging or snagging once they attain either a paddlefish or shovelnose sturgeon daily creel limit. It is illegal to sell paddlefish or their roe taken by sportfish snagging methods. Also, when snagging, anglers may only harvest 1 trophy catfish per day and must cease snagging once a trophy cat-

Q: May you clean your fish while on the water?

A: Anglers shall not remove any part of the head or tail of any fish for which there is a size or daily creel limit until finished fishing and off the water.

fish is taken. When gigging, an angler may take 1 trophy catfish of each species per day. No daily limits on any other rough fish. Regardless of condition, all sport fish as well as alligator gar and lake or pallid sturgeon taken by gigging and snagging must be immediately returned to the water. Persons may gig rough fish through the ice any time the surface is frozen thick enough to stand upon. The gigger must gig while supported by the ice. Disposal of gigged or snagged fish on the bank is considered littering and subject to a fine.

Statewide regulations apply unless otherwise mentioned below:

SPECIAL REGULATIONS FOR GREEN RIVER, ROLLING FORK RIVER AND THEIR TRIBUTARIES

- Up to five single or five treble hooks may be used for snagging.

SPECIAL REGULATIONS FOR TENNESSEE RIVER (below Kentucky Lake)

- Gigging is prohibited in the Tennessee River downstream of Kentucky Dam year-round.
- The area from Kentucky Dam to the new U.S. 62 bridge is open to snagging 24 hours per day from January 1 through May 31 and from sunset to sunrise from June 1 through December 31.
- The area from the I-24 bridge downstream to the Ohio River is open to snagging year-round.
- The area from the new U.S. 62 bridge to the I-24 bridge is closed to snagging year-round.
- Snagging is prohibited under the U.S. 62 bridge, under the P&L railroad bridge, and from any fishing pier or jetty.
- Daily snagging creel limit of 8 fish in aggregate excluding invasive carp, only two of which can be paddlefish and sturgeon.

- No size limit for sport fish snagged in the Tennessee River below Kentucky Dam.
- Anglers must cease snagging if the daily creel limit of any sportfish with a daily limit less than 8 fish is reached.
- Snagged shad, herring or invasive carp may be released, but all other species, including paddlefish and sportfish must be taken into possession and not be culled, regardless of size.

SPECIAL REGULATIONS FOR CUMBERLAND RIVER (below Lake Barkley)

- Gigging and snagging only permitted downstream of U.S. 62 bridge.
- Harvest of sportfish prohibited.
- Snagged shad, herring or invasive carp can be released, but all other species, including paddlefish must be taken into possession and not be culled.

GIGGING AND SNAGGING ARE PROHIBITED IN THE FOLLOWING WATERS OR AREAS:

- Cave Run Lake including all tributaries up to the first riffle (The location of the first riffle may change depending on water level).
- Cumberland River, below Wolf Creek Dam downstream to the Tennessee line including all of Hatchery Creek and all tributaries for ½ mile upstream of their confluence with the Cumberland River.
- Within 200 yards of a dam, except below Kentucky Dam.
- Cumberland River, below Barkley Dam downstream to the U.S. 62 bridge.
- Tennessee River, below Kentucky Dam from the new U.S. 62 bridge to I-24 bridge.
- Middle Fork of Kentucky River from Buckhorn Lake downstream to the Breathitt County line.
- Rough River, below Rough River Dam to KY 54 bridge.
- In the Tennessee River below Kentucky Dam, gigging prohibited year-round.

BORDERING WATERS

All resident Kentucky anglers who fish reciprocal waters must have a valid Kentucky fishing license.

OHIO RIVER FISHING

(KRS 150.170)

An angler with a Kentucky fishing license may fish the entire main stem of the Ohio River from a boat, or a bordering state's bank without buying the other state's license (bordering states include Illinois, Indiana and Ohio).

This does not apply if fishing a bordering state's embayments or tributaries, which begin at a straight line between opposite points where the tributary or embayment meets the main stem of the river.

Anglers fishing from a bordering state's bank must follow the size and creel limits of the state where the angler is located. For example, a Kentucky licensed angler can stand on the Indiana bank and fish the main stem of the Ohio River without an Indiana fishing license, but must abide by Indiana's size and creel limits. However, anglers fishing from a boat must follow the size and creel limits of the state in which the angler is licensed.

Reminder: snagging is not permitted for any fish species on the Indiana side or in any Indiana waters of the Ohio River. In Kentucky, a person may not snag within 200 yards below any dam on the Ohio River.

MISSISSIPPI RIVER

(KRS 150.170)

Anglers licensed in Kentucky may fish Missouri portions of the Mississippi River without buying a Missouri fishing license. Each state recognizes the sport fishing licenses and permits of the other state on the Mississippi River. The river is defined as the main channel and immediate side or secondary channels and chutes. It does not include oxbow or floodplain lakes or any tributary streams. A tributary is delineated by the straight line between opposite points where the tributary connects with the main body of the Mississippi River. Furthermore, the river does not include backwaters that extend onto the floodplain or tributaries when the river exceeds 33 feet at

the gauging station at Cairo, Illinois.

Sport fishing license or permit holders may fish from, or attach any device or equipment to land along the river under the jurisdiction of the other state. Landowner permission is required to fish from the bank.

Sport fishing license holders shall abide by the regulations in the state in whose waters they are fishing and when fishing in waters they are not licensed to fish, shall comply with the most restrictive regulation.

DALE HOLLOW LAKE

Anglers may use either a Tennessee or a Kentucky sport fishing license while fishing in the Wolf River arm of Dale Hollow Lake. This includes the Il-will Creek embayment beginning at a line crossing the Wolf River at its mouth where it joins the Obey River and the main part of the lake.

Anglers must obey the regulations of the state in which they are licensed. Kentucky residents must have a Kentucky license.

KENTUCKY LAKE

On Kentucky Lake, anglers with either a valid Kentucky or Tennessee sport fishing license may fish from Eggner's Ferry Bridge (U.S. 68 and KY 80) in Kentucky south to the Governor Ned McWhorter Bridge (U.S. 79 and TN 76) in Tennessee. This includes all embayments and tributaries, except the Blood River embayment in Kentucky. Anglers must abide by the fishing and boating regulations of the state in which they are fishing.

BIG SANDY and TUG FORK RIVERS

Anglers with a valid Kentucky fishing license may fish the entire main stem of the Big Sandy and Tug Fork rivers from the confluence of the Ohio and Big Sandy Rivers upstream to the Virginia state line. Kentucky anglers can fish from a boat or on West Virginia's bank without buying a West Virginia fishing license.

This does not apply to fishing West Virginia's tributaries or embayments, which begin at a straight line between

opposite points where the tributary or embayment meets the main stem of the river.

Kentucky anglers fishing from West Virginia's bank must follow their size and creel limits. However, Kentucky anglers fishing the main stem from a boat must follow Kentucky's size and creel limits.

BIG SOUTH FORK OF THE CUMBERLAND RIVER

Anglers may use either a Tennessee or a Kentucky sport fishing license while fishing that portion of the Big South Fork from the Leatherwood Ford bridge (TN 297) in Tennessee to the KY 92 bridge at Yamacraw, Kentucky.

Anglers must obey the regulations of the state in which they are licensed. Kentucky residents must have a Kentucky license.

OTHER BORDERING WATERS

On all other bordering waters, boundaries are set by state lines. Obey the laws of the state in which you are fishing.

TAKEMEFISHING™.org

The Take Me Fishing website at www.takemefishing.org is a bountiful resource for anglers just learning to fish as well as intermediate anglers looking to improve their knowledge.

DEFINITIONS

(301 KAR 1:201, KRS 150.010)

Fishing-related definitions not listed here are included in appropriate sections of this guide.

Angling means taking or attempting to take fish by hook and line in hand, rod in hand, jugging, set line or sport fishing trotline.

Artificial baits are lures or flies made of wood, metal, plastic, hair, feathers, preserved pork rind or similar inert materials and having no organic baits including dough bait, putty or paste type baits designed to attract fish by taste or smell.

Authorization number is the number assigned to a person in lieu of fishing or hunting license when the license is purchased over the phone or Internet.

Black bass includes largemouth, smallmouth, Kentucky (spotted) and Coosa bass.

Catfish: A catfish means a blue, channel or flathead catfish. Bullheads are not included in this definition.

Culling: Replacing a live fish in the daily creel limit with another fish of the same species.

Daylight hours begin one-half hour before

sunrise and end one-half hour after sunset.

Daily creel limit means the maximum number of a particular species or group of species a person may legally take in one (1) calendar day while fishing.

Fishing is taking or attempting to take fish in any manner, whether or not fish are in possession.

Lake means impounded waters, from the dam upstream to the first riffle on the main stem river and tributary streams or as specified in regulation.

Length means the distance from the front tip of a fish's lower jaw with mouth closed to the tip of its tail with the fish laid flat on a rule with its tail lobes squeezed together.

Organic baits are insects, minnows, fish eggs, worms, corn, cheese, cut bait or similar substances used as a lure.

Possession limit means the maximum number of unprocessed fish a person may hold after two (2) or more days of fishing.

Regulation is an official rule of Kentucky law applying to particular activities or circumstances.

Release means return of the fish, in the

best possible condition, immediately after removing the hook, to the water from which it was taken in a place where the fish's immediate escape shall not be prevented.

Resident is anyone who has established permanent and legal residence in Kentucky and residing here at least 30 days.

Rough fish are those fish species not listed as sport fish in the regulation 301 KAR 1:060.

Size limit is the legal length a fish must be if it is in possession. (Fish length is measured from the tip of the closed lower jaw to the tip of the tail with fish laid flat on rule and tail lobes squeezed together.)

Slot limit means fish within a specified minimum and maximum size range must be released.

Single hook is a hook with only one point.

Tenant is any resident sharecropper or lessee who lives and works on farmland owned by his/her landlord.

Trophy catfish is a blue or flathead catfish 35 inches or longer or a channel catfish 28 inches or longer.

Kentucky's largest salamander: Eastern Hellbender

HAVE YOU SEEN ME?

Can grow up to 24" long

Completely aquatic

Not aggressive or poisonous

Long lived (up to 30 yrs.)

Kentucky Fish and Wildlife is very interested in all location records for the eastern hellbender. If you see this giant salamander, please e-mail John MacGregor (john.macgregor@ky.gov) or Zach Couch (zach.couch@ky.gov) with location information and a photograph, if possible.

GENERAL INFORMATION

Kentucky is blessed with a myriad of productive fishing waters with 17 major reservoirs, dozens of smaller-state owned lakes, large rivers as well as smaller streams perfect for floating. The waters of Kentucky contain warm water species such as largemouth bass, catfish and crappie as well as cool water species such as muskellunge, trout and walleye. An angler can run the gamut of fishing possibilities from catching slab crappie from Kentucky Lake and Lake Barkley in far western Kentucky to landing large rainbow trout in the Cumberland River below Lake Cumberland in southeastern Kentucky.

Buy your Kentucky fishing license and get in on the great fishing in our state.

Fishing Forecast

Use our Fisheries Biologists as your guide to your next fishing spot. The forecast provides anticipated fishing success based on current fish surveys and other historical data. Visit fw.ky.gov to download your copy.

FISHING TOURNAMENTS

As a voluntary program, fishing event organizers are strongly urged to use the Tournament website at fw.ky.gov to register and report on their events. Tournament planners can avoid space conflicts with other previously registered events by adjusting the date, time, specific launch areas or weigh-in site for their activities.

Other recreational anglers and boaters can check the website to see when and where fishing events are scheduled. This will assist them in planning their activities and also help avoid potential space conflicts. Additional permits may be required by the U.S. Army Corps of Engineers, the U.S. Forest Service or Kentucky State Parks.

If the launch site for your tourna-

Bigger tournaments

Fishing tournaments involving more than 100 boats must register with the Division of Law Enforcement, 1-800-858-1549.

ment involves using a marina ramp, please contact the marina operator before scheduling your tournament.

Check the Kentucky Fish and Wildlife website at fw.ky.gov for more information on tournaments and keeping your bass alive.

HABITAT

The Kentucky Department of Fish and Wildlife regularly creates and maintains fish attractors and habitat structures in lakes across Kentucky. The fish habitat/attractors are made in a variety of shapes and sizes and include material from trees, rocks, logs, wooden pallets, and even commercially made plastic structures. These structures are typically dense in nature with tree limbs and shade producing cover. Rock piles and gravel beds create spawning grounds for many species and brush piles provide much needed shelter for young fishes. All of these structures also provide stable substrates for the attachment of aquatic plants that provide the basis of the food chain in lakes. In general, more habitat just means more fish.

Kentucky Fish and Wildlife also collects trees for habitat with our annual Christmas tree drive. Every year after the holiday season, we collect and recycle thousands of discarded natural trees into brush piles for habitat.

All of the habitat sites created are published and made available to the public via Google Maps. They can be accessed by using the Find a Place to Fish feature or on the Lakes with Fish Attractors page at fw.ky.gov.

The Lakes with Fish Attractors page also has downloadable GPX files for importing in to the depth finder of

NEED A PLACE TO FISH?

Find new fishing information on Kentucky waterbodies by visiting fw.ky.gov. Click on the "Fishing" tab on the home page and then scroll down until you see the "Find A Place To Fish" graphic. From here you can search for waterbodies by Kentucky counties, waterbody type, access type, or by species of preference.

Once on a waterbody page, anglers can click on any bank or boat access location found at that waterbody and get more information on type of access, directions through Google maps, parking capacity and many other things.

In addition, waterbody pages also provide anglers with fish habitat information, species regulations, the newest Fishing Forecast, and more.

your boat. Most brands of depth finder will allow for download of GPX files, but you may have to consult your owners manual. YouTube is also a good source for instructional videos on how to import and convert these files.

Once you know where the sites are, fishing them can be rewarding. Lake habitat sites will vary in depth and may include areas in the backs of creeks, large flats, small pockets, and even main lake points. Many of these sites are located away from the bank in deeper water, so depth finders will help in identifying these offshore locations.

Q: Can you sell fish caught while possessing only a valid Kentucky sport fishing license?

A: No. It is illegal to sell any fish (except Asian carp) caught without the proper commercial fishing license and gear.

FISH CONSUMPTION ADVISORIES

The Kentucky Departments for Environmental Protection, Health Services and Fish and Wildlife Resources jointly issue a fish consumption advisory to the public when fish are found contaminated. Trace contaminants such as polychlorinated biphenyl (PCB), mercury and chlordane are found in some fish in Kentucky. An advisory cautions people about potential health problems that may result from eating fish caught from a particular area. An advisory does not ban eating fish; it is a guide to reduce your risk. This guide provides information on how often fish may be safely eaten. Most fish are healthy to eat and are an excellent source of low-fat protein.

CONSUMPTION GUIDELINES

Consumption rates for specific fish have been developed based on a meal of ½ pound of fish (before cooking) eaten by a 150-pound individual. Following these guidelines and spacing your meals of those fish species will limit your health risks by reducing your total exposure. See table on the next page.

Fish consumption advisories now delineate between predatory fish, bottom feeder fish, panfish and **other fish** species including Asian carp, trout, min-

Sensitive population

Women of childbearing age, children 6 years of age or younger, pregnant and nursing women and women who plan to become pregnant should follow the advisories in the "Sensitive Population" category.

REDUCE YOUR RISK

Risks from eating contaminated fish can be reduced by the following:

- fillet the fish, remove the skin and trim all fat
- do not eat fish eggs
- broil, grill or bake the fillets instead of frying or microwaving
- do not eat or reuse juices or fats that cook out of the fish.

PARASITES and GRUBS IN FISH

Kentucky anglers will occasionally clean a fish and find a white or yellowish color worm in the fish's flesh that is about the size of a grain of rice. Or, when stream fishing, an angler will encounter a smallmouth bass or sunfish with small black specks on its belly or across its body.

This is a parasitic fluke that requires different host animals to complete its life cycle: a fish eating bird, a snail and a fish. The grub matures and produces eggs inside a host fish-eating bird such as a Great Blue Heron. The eggs enter the water from the bird's droppings

or from its mouth. The eggs hatch and tiny larvae of the parasite burrow into a snail. After a time in the snail, the parasite changes form and swims to its next host, a fish. Inside the fish, the parasite changes to a grub form and waits for the fish to be eaten. Then, the cycle repeats.

The angler's first instinct is to discard any fish with either the grubs in the flesh or black specks on the body. Grub-infested fish are safe to eat. Grubs do not infect people. Remove any grubs found and prepare the fish as you normally would.

nnows, etc. **Predatory fish** include black bass (smallmouth, largemouth and spotted), white bass, striped bass, hybrid striped bass, sauger, saugeye, walleye, muskellunge, flathead and blue catfish, yellow bass, chain pickerel and all gars.

Panfish include bluegill, crappie, rock bass as well as green, longear and redear sunfish. **Bottom feeder fish** include the bullheads, buffalo species, channel catfish, common carp, redhorse species, shovelnose sturgeon, drum, creek chub as well as carpsuckers and white, spotted and northern hog suckers.

STATEWIDE

All waters are under advisory for mercury. Women of childbearing age and children 6 years of age or younger should eat no more than six meals per year of predatory fish. They should eat no more than one meal per month of panfish, bottom feeder fish and no more than one meal per week of fish in the "other fish" category. The general population should eat no more than one meal per month of predatory fish and no more than one meal per week of panfish and bottom feeder fish. There is no advisory for the general population for fish in the "other fish" category. However, brown trout over 17 inches are more predatory and have the potential to build up higher contaminant levels when compared to

smaller brown trout.

Organic mercury occurs naturally in the environment and does not affect swimmers, skiers or boaters. Fish accumulate low levels of mercury by eating plankton and other small aquatic creatures.

In 2021, state officials began testing fish from Kentucky waters to determine the prevalence of PFAS or polyfluoroalkyl substances. These substances are found in non-stick cookware, fire fighting foam, stain resistant carpets and some food packaging and break down slowly in the environment. Based on initial PFAS results, officials recommend following the same consumption guidelines for mercury while consuming fish from Kentucky waters.

For the most up-to-date consumption advisory information, please visit fw.ky.gov.

FISH CONSUMPTION ADVISORIES

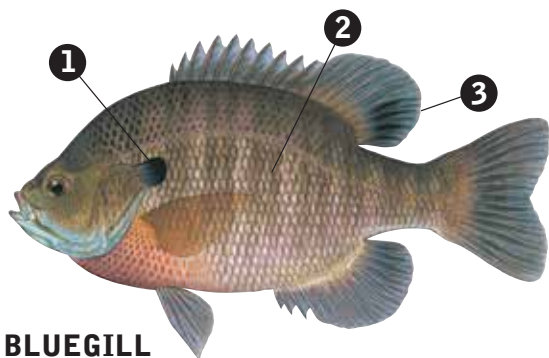

NUMBER OF MEALS PER SPECIES		General Population	Sensitive Population
STATEWIDE	Predatory fish (mercury and PFAS)	1/month	6/year
	Bottom feeders and panfish (mercury and PFAS)	1/week	1/month
	Other fish (mercury and PFAS)	No advisory	1/week
DRAKES CREEK (from dam on W. Fork at Franklin, KY downstream to confluence with Barren River)	All species (PCB)	No consumption	
FISH LAKE, Ballard Co. (from lake headwaters to outflow of Shawnee Creek)	Bottom feeders (mercury)	1/month	6/year
FISHTRAP LAKE, Pike Co. (from VA/KY state line to Fishtrap Lake dam)	Bottom feeders and hybrid striped bass (PCB)	1/month	6/year
GREEN RIVER LAKE (from lake headwaters to dam)	Bottom feeders (PCB and mercury)	1/month	6/year
KNOX CREEK, Pike Co. (from VA/KY state line to Tug Fork River)	Flathead catfish (PCB and mercury)	No consumption	
	Bottom feeders (PCB)	6/year	No consumption
	Predatory fish (PCB) and panfish (PCB and mercury)	1/month	6/year
LITTLE BAYOU CREEK, McCracken Co.	All species (PCB)	No consumption	
METROPOLIS LAKE, McCracken Co.	All species (PCB and mercury)	No consumption	
MUD RIVER, Logan Co. (from headwaters to Wolf Lick Creek)	Bottom feeders (PCB)	No consumption	
	Predatory fish and panfish (PCB)	1/month	6/year
MUD RIVER, Butler and Muhlenberg cos. (from Wolf Lick Creek to Green River)	Bottom feeders (PCB)	1/month	6/year
	Panfish (PCB)	1/week	1/month
TOWN BRANCH, Logan Co.	All species (PCB)	No consumption	

The Ohio River has different advisories than other Kentucky waters.

Any fish species not listed in the table below falls under a 1 meal per week advisory for mercury.

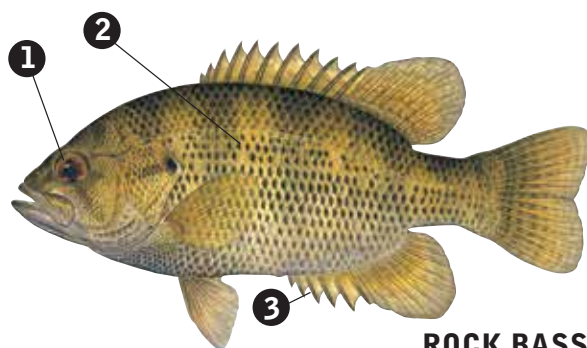

OHIO RIVER, UPPER and MIDDLE REACH (Mouth of the Big Sandy River to J.T. Meyers L&D)	Common carp (PCB)	1/month	1/month
	Channel catfish under 18 inches long (PCB)	1/month	1/month
	Channel catfish 18 inches and longer (PCB)	6/year	6/year
	Flathead catfish (PCB)	1/month	1/month
	Striped and hybrid striped bass (PCB)	6/year	6/year
	White bass (PCB)	1/month	1/month
	All suckers (PCB)	1/month	1/month
	Freshwater drum (PCB)	1/month	1/month
	Black bass (largemouth, smallmouth and spotted) (mercury)	1/month	1/month
OHIO RIVER, LOWER REACH (J.T. Meyers L&D to mouth of Ohio River)	Common carp 22 inches and longer (PCB)	1/month	1/month
	Blue catfish 20 inches and longer (PCB)	1/month	1/month
	Channel catfish 18 inches and longer (PCB)	1/month	1/month
	Flathead catfish (PCB and mercury)	1/month	1/month
	Striped and hybrid striped bass (PCB and mercury)	1/month	1/month
	White bass (mercury)	1/month	1/month
	Freshwater drum 14 inches and longer (mercury)	1/month	1/month
	Black bass (largemouth, smallmouth and spotted) (mercury)	1/month	1/month
	Sauger (mercury)	1/month	1/month

ANGLER'S FISH IDENTIFICATION GUIDE

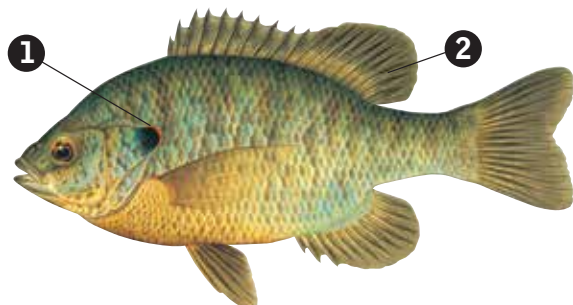

BLUEGILL

1. Gill flap black, 2. Vertical bars on side, 3. Dark blotch at rear of soft dorsal fin

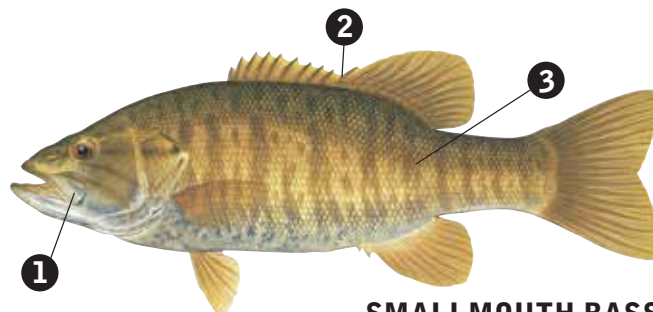

ROCK BASS

1. Eye rimmed in red, 2. Most scales have a dark spot, 3. Anal fin has five or six spines

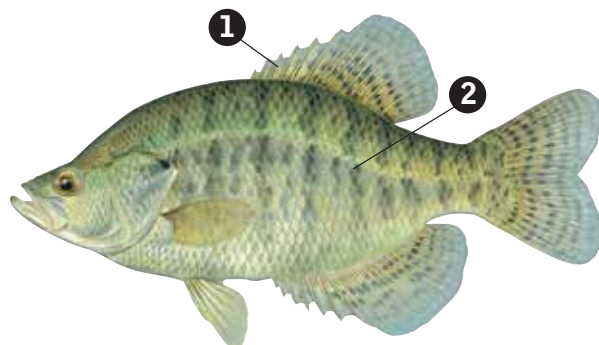

REDEAR SUNFISH

1. Gill flap black with orange or red margin, 2. No dark blotch at rear of soft dorsal fin

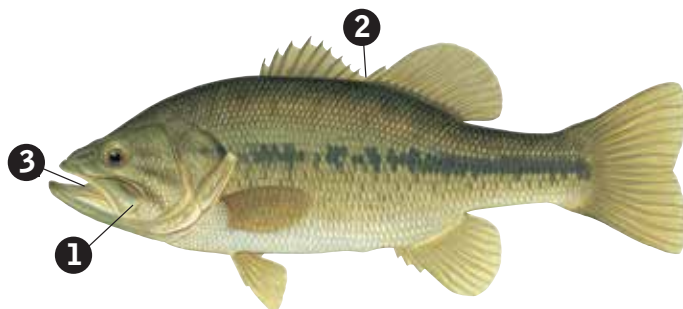

SMALLMOUTH BASS

1. Upper jaw does not extend beyond back of eye, 2. Shallow notch between dorsal fins, 3. Bronze colored with vertical bars on side

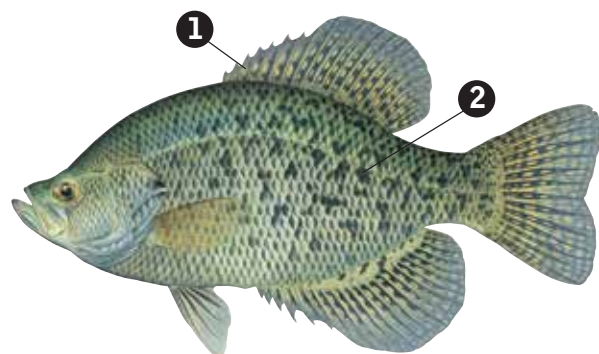

WHITE CRAPPIE

1. Dorsal fin has five or six spines, 2. Vertical bars on side

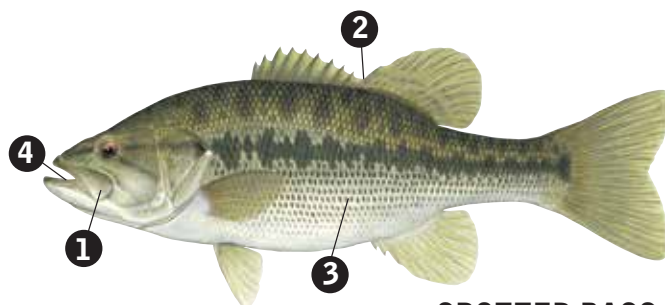

LARGEMOUTH BASS

1. Upper jaw extends beyond back of eye, 2. Dorsal fins separated by deep notch, 3. Tongue usually without tooth patch

BLACK CRAPPIE

1. Dorsal fin has seven or eight spines, 2. Irregular black blotches on side

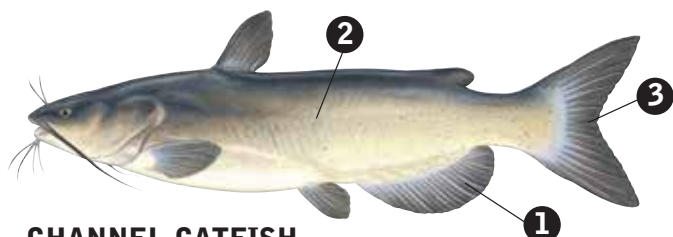

SPOTTED BASS

1. Upper jaw does not extend beyond back of eye, 2. Shallow notch between dorsal fins, 3. Rows of dark spots below lateral line, 4. Single tooth patch on tongue

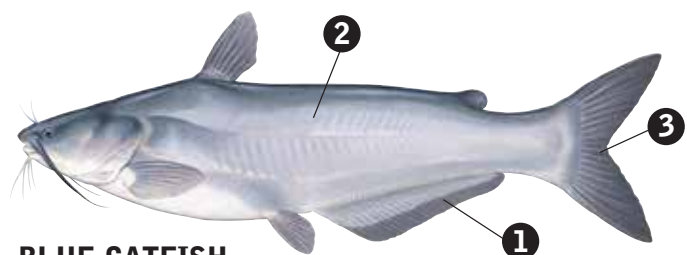

FLATHEAD CATFISH

1. Lower jaw projects far beyond upper jaw, 2. Tail fin not deeply forked, 3. Head is compressed on flathead catfish

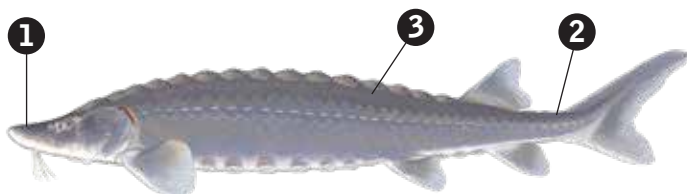

CHANNEL CATFISH

1. Outer margin of anal fin rounded, with 24 to 29 rays, 2. Dark spots usually on body, 3. Tail fin deeply forked

BLUE CATFISH

1. Outer margin of anal fin straight, with 30 to 35 rays, 2. Body without dark spots, 3. Tail fin deeply forked

LAKE STURGEON

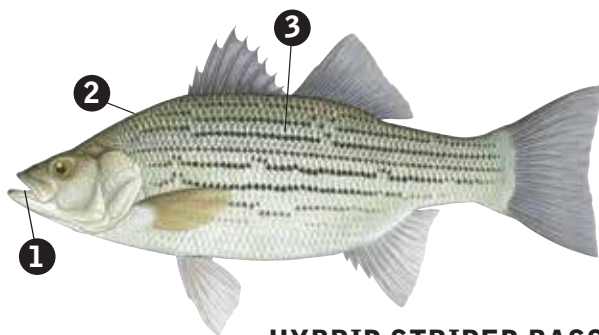

1. Short cone-shaped snout, 2. Short caudal peduncle, 3. Rows of bony plates (scutes)

ALLIGATOR GAR

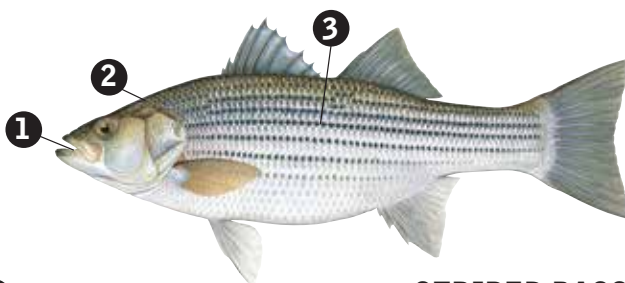

1. Short, broad snout when compared to other gar species, 2. Numerous large teeth, 3. Heavy body and large size (adults can reach 9 feet and 300 pounds)

Lake sturgeon and alligator gar may not be harvested statewide. Alligator gar are part of a restoration effort in western Kentucky. Lake sturgeon are part of a restoration effort in the upper reaches of Lake Cumberland. If you see or catch these fish, please report the catch or sighting to Matt Thomas at (502) 892-4463.

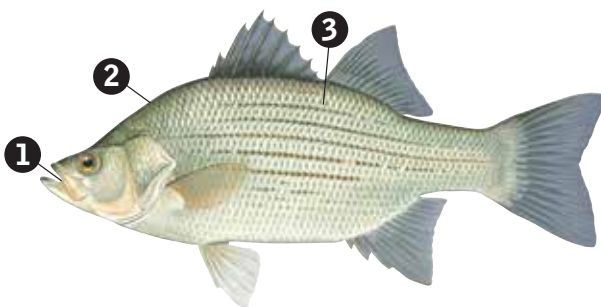

HYBRID STRIPED BASS

1. Tooth patch on tongue consists of two rows of teeth, often partially joined, 2. Back moderately arched, 3. Most stripes are broken, many more than once

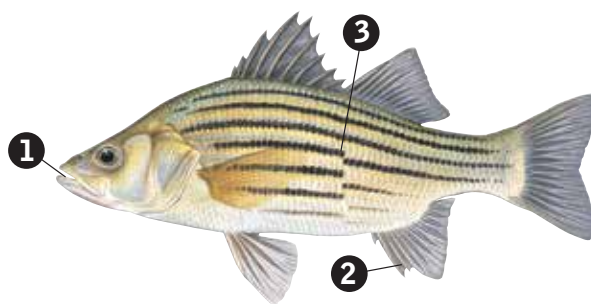

STRIPED BASS

1. Tooth patch on tongue consists of two distinctly split, parallel rows of teeth, 2. Back slightly arched, more streamlined, 3. Stripes very distinct and most extend fully onto tail

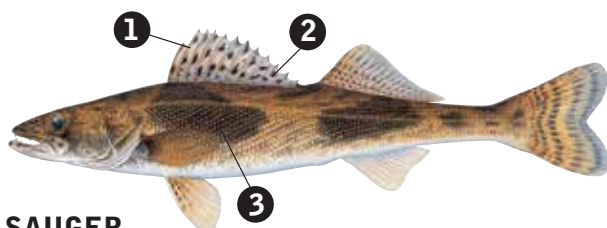

WHITE BASS

1. Single tooth patch on tongue, 2. Back arched, 3. Stripes often faint and irregular

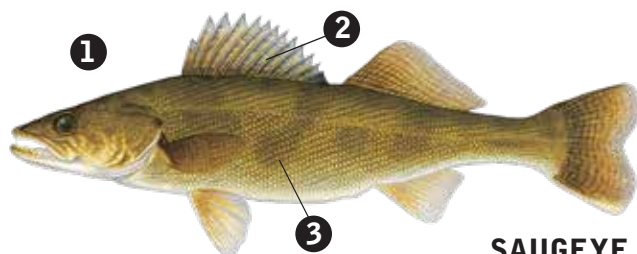

YELLOW BASS

1. No tooth patch on tongue, 2. Second and third anal spines nearly same length, 3. Stripes distinct and broken above anal fin

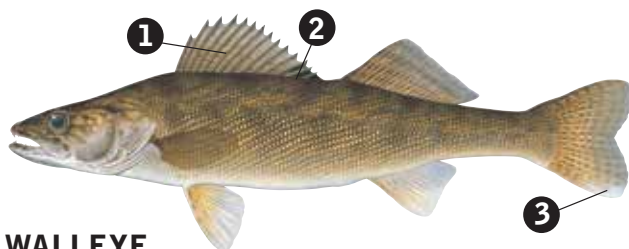

SAUGER

1. Rows of dark spots on spiny dorsal fin, 2. No dark blotch at rear of spiny dorsal fin, 3. Dark saddle-like blotches which extend onto the sides of the body

SAUGEYE

1. Intermediate in appearance between walleye and sauger, 2. May have dark streaks or blotches on spiny dorsal fin, 3. Dark blotches on side, but smaller than those on sauger

WALLEYE

1. Dark streaks or blotches on spiny dorsal fin, but not distinct spots, 2. Dark blotch at rear of spiny, dorsal fin, 3. White spot on lower lobe of tail fin

MUSKELLUNGE

1. Duck-like bill with sharp teeth, 2. No scales on lower half of cheek and gill flap

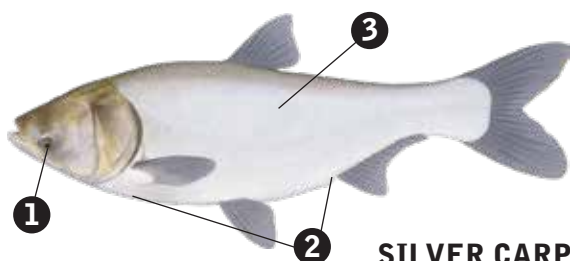

AQUATIC NUISANCE SPECIES

INVASIVE CARP

Four species of invasive carps (big-head, silver, black and grass) are reproducing and threaten Kentucky's aquatic ecology. These fish may outcompete na-

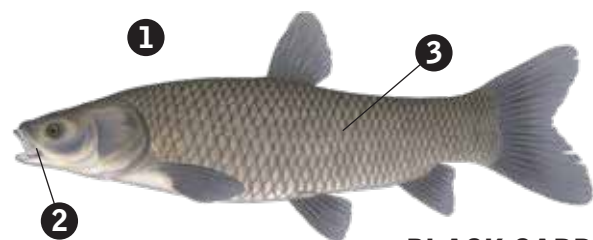

tive fishes for forage and their populations in some areas are expanding at an alarming rate. These carp species can produce over 1 million eggs per large female each year. In areas where con-

ditions are suitable for reproduction, their numbers cannot currently be controlled without support from commercial fishing. See the invasive carp page at fw.ky.gov.

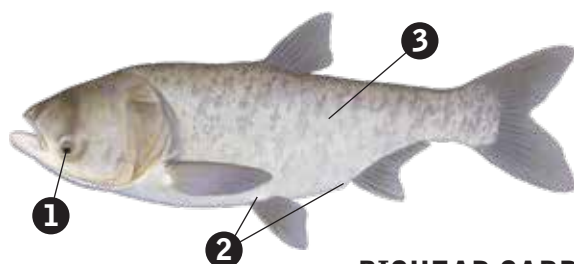

SILVER CARP

1. Eye located below midline of head, 2. Keel extending from the anus to the origin of the pectoral fins, 3. Silvery in color, very small scales.

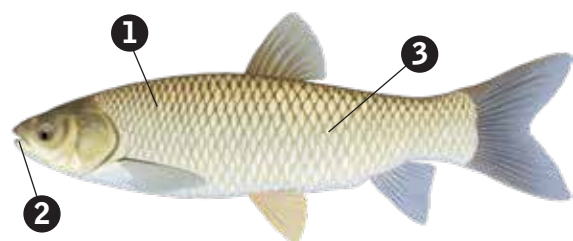

BLACK CARP

1. Body shape similar to grass carp, 2. Pharyngeal teeth (teeth in the throat) look like human molars, 3. Large scales and dark in color

BIGHEAD CARP

1. Eye located below midline of head, 2. Keel extending from the anus to the middle of the pelvic fins, 3. Dark gray body with blotches, very small scales.

GRASS CARP

1. Large, dark-edged scales, 2. Mouth terminally located and lacks barbels, 3. Color is dark olive above, with greenish-yellow sides, and white belly

It's the law

No live fish, live minnow, or live bait organisms not native or established in Kentucky (except aquarium species) shall be bought, sold, possessed, imported, or in any way used or released into Kentucky waters.

ECONOMIC IMPACTS

Economic impacts can include increased costs to businesses and individuals due to interference with normal operations or infrastructure. In addition, tourism dollars are lost when recreational experiences such as hunting, hiking, fishing, swimming, and boating are no longer possible or pleasant. For example, invasive zebra mussels clog pipes, cover shoreline access, and encrust boat

hulls and motors. Their impacts alone have cost the U.S. billions of dollars in damage control. Most recently, zebra mussels were found in a popular aquarium and home décor product known as a moss ball. The threat of new introductions into U.S. waters was so great that all sales and distribution of moss balls was effectively shut down and products were removed from shelves.

ECOLOGICAL IMPACTS

Aquatic nuisance species ecological impacts include the degradation of native habitats and ecosystem function, reduced abundance of native species, and the loss of biodiversity (the commu-

nity of unique organisms within specific habitats). Consider the invasive aquatic weed hydrilla. Hydrilla is a submerged plant that spreads rapidly while choking out native vegetation and altering the physical and chemical composition of the lakes and ponds where it is introduced. This can lead to reduced foraging habitat, alter the flow and mixing of the water column, and disrupt access for boating, fishing, swimming, and even block the withdraw of water for agricultural irrigation or power generation in many waterbodies.

AESTHETIC IMPACTS

Aesthetic impacts can result in the inability for Kentuckians to enjoy our natural heritage and pass along our favorite fishing, hunting and recreational areas to future generations. For example, invasive carp can quickly colonize rivers, which creates imbalances in the ecosystem, can increase the opportunity for disease, and creates hazards to boaters and anglers.

WHAT YOU CAN DO**Anglers and Water Recreationists**

- Clean your boat, anchor, and other items that may have been submerged in water. This is best done by rinsing your transportation sources and equipment thoroughly with a hard spray or HOT (120° F) water, like that found at a do-it-yourself carwash.
- Drain equipment that may retain water before leaving a water access or shoreline property and allow equipment to dry thoroughly before using in another waterbody.
- Use proper bait bucket practices.

Do not dump leftover bait! Dispose of unwanted bait, including minnows, leeches, crayfish and worms, in the trash. Dumping of bait is a major pathway that allows nuisance species to spread between waterways.

- If your dog goes swimming, wash your dog with clean water and brush its coat.

Aquarium and Water Garden Owners

DO NOT release fish and aquatic plants into the wild. Release or escape of fish and plants from aquariums and water gardens can harm Kentucky waters and native species. Aquarium fish can carry diseases that can kill native fish and invasive plants can clog waterways and snag boat propellers.

Some alternatives to release include:

- Give/trade with another aquarist, pond owner, or water gardener
- Donate to a local aquarium society, school, or aquatic business
- Seal aquatic plants in plastic bags and dispose in the trash
- Contact a veterinarian or pet retailer for guidance on humane disposal of animals

REPORT AQUATIC NUISANCE SPECIES

If you think you have found an Aquatic Nuisance Species, contact the KDFWR Fisheries Division at 1-800-858-1549 or email andrew.stump@ky.gov. Information provided should include the date of observation, specific location, multiple pictures, detailed descriptions, and your contact information. Please save the specimen if possible (refrigeration is preferable).

THREAT TO TROUT FISHERIES

The invasive algae known as Didymo (*Didymosphenia geminata*) has been documented in the Cumberland River (Lake Cumberland tailwater).

Didymo, native to northern Europe and Canada, is a white, gray, light brown or beige mass on the stream bottom that resembles shag carpet. Didymo can choke the

stream bottom with mats that cover up native plants and crowd out native insects that trout need for food.

To prevent the spread of Didymo into other Kentucky tailwaters and streams, anglers who fish the Cumberland River and out-of-state waterways should:

- Inspect all wading gear and boat hulls, livewells, lower units and

trailers for any vegetation after leaving the water and remove.

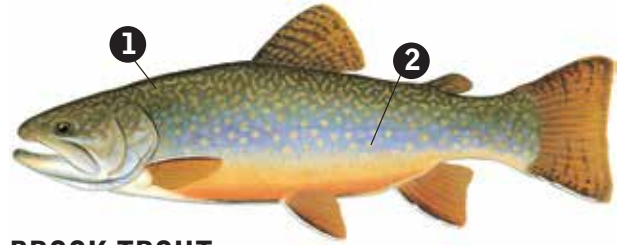

- If algae or vegetation is discovered later, disinfect by soaking in a 2 percent solution of household bleach, or a 5 percent solution of salt, or in undiluted vinegar. Alternatively, after the item is dry to the touch, allow it to air dry for at least an additional 2 days.

TROUT WATERS

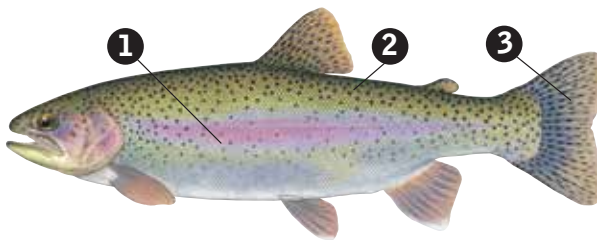

BROWN TROUT

1. Dark spots and orange or red spots with blue halos,
2. Few spots on tail fin

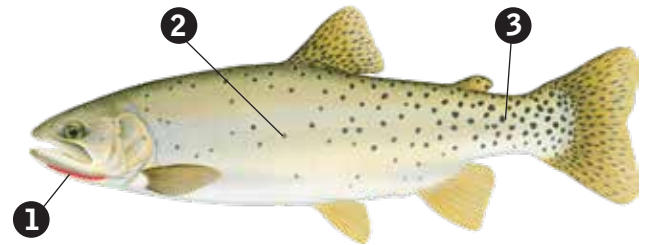

BROOK TROUT

1. Worm-like markings (vermiculations) on upper body,
2. Pale spots on dark background

RAINBOW TROUT

1. Pink to red stripe on side, 2. Back and sides heavily speckled, 3. Spots on tail fin

CUTTHROAT TROUT

1. Orange/red "slash" on lower jaw, 2. May have pink hue along centerline, but typically pale, 3. Spots may be more concentrated towards rear of fish

TROUT STOCKING

TAILWATERS

The following tailwaters receive rainbow and brown trout. Stocking begins in spring and continues into the late fall; monthly totals will vary. Monthly schedules are available through Kentucky Fish and Wildlife by calling 1-800-858-1549 or logging on to fw.ky.gov.

Leave a note

When planning a boating trip, leave a note, or float plan, with someone to let them know where you are. Include your departure and expected return times, the waters where you will be boating, a description and/or license number of the vessel and where you can be reached in case of emergency.

TAILWATERS	Total Rainbows	Total Browns	Months
Buckhorn	5,000	0	4,5,6,10,11
Carr Creek	4,000	0	4,5,10,11
Cave Run	6,000	0	4,5,6,10,11
Cumberland*	192,400	42,000	3,4,5,6,7,8,9,10,11,12
Dewey	4,000	0	4,5,10,11
Fishtrap	10,000	0	4,5,6,10,11
Grayson	5,000	0	4,5,6,10,11
Herrington	4,500	300	3,5,6,7,8,11
Laurel River	500	250	3,4,5,6,10
Martins Fork	3,750	0	4,5,6,10,11
Nolin River	8,000	250	3,4,5,6,7,9,10,11
Paintsville	14,000	0	4,5,6,7,9,10,11
Taylorsville	3,000	0	4,5,6,11
Yatesville	3,000	0	4,5,10,11

*Stocking dates for Cumberland River (Lake Cumberland tailwater) will not be announced. Also, brook trout are stocked in March and cutthroat trout in early fall.

STREAMS

The streams listed on the following pages are stocked with rainbow trout by the Kentucky Department of Fish and Wildlife Resources (KDFWR) and the U.S. Fish and Wildlife Service during the months indicated. Brown trout are stocked once each year in some streams

for a put-grow-take fishery. All trout are produced at Wolf Creek National Fish Hatchery. Visit fw.ky.gov for a list of monthly trout stockings.

CATCH and RELEASE STREAMS

Some streams indicated in the ta-

ble have a catch and release season (no harvest) from Oct. 1 through March 31. During the catch and release season, only artificial baits shall be used and all trout caught must be immediately released.

STATEWIDE STREAMS	County	Total Rainbows	Months	Total Browns	Catch and Release (No Harvest) Season
Bark Camp Creek*	Whitley	3,750	3,4,5,6,10	500	Oct. 1 - Mar. 31; 3.9 miles
Beaver Creek	Wayne	1,500	4,5,10		Oct. 1 - Mar. 31; Hwy 90 bridge upstream to Hwy 200 bridge – 2.8 miles
Big Bone Creek	Boone	1,600	3,4,10,12		Oct. 1 - Mar. 31; inside the Big Bone Lick State Park – 2.1 miles
Big Caney Creek	Elliott	2,500	4,5,10	250	
Cane Creek*	Laurel	3,750	3,4,5,6,10		Oct. 1 - Mar. 31; 6.6 miles
Casey Creek	Trigg	8,000	2,4,5,6,7,8,9,10		Oct. 1 - Mar. 31; 3.6 miles
Chimney Top Creek*	Wolfe	450	9		
Clear Creek	Bell	1,200	4,10		Oct. 1 - Mar. 31; Hwy 190 bridge down stream to mouth – 4.5 miles
Craney Creek*	Rowan	1,000	9		
East Fork, Indian Creek*	Menifee	4,000	3,4,5,9	400	Oct. 1 - Mar. 31; 5.3 miles
East Fork, Little Sandy River	Boyd	2,400	3,4,10		
Elk Spring Creek	Wayne	1,600	4,5,6,10		Oct. 1 - Mar. 31; 2.8 miles
Floyds Fork	Jefferson	12,000	2,3,4,10,11,12		Oct. 1 - Mar. 31; US 60 downstream to US 150 – 20 miles
Fort Campbell	Christian	2,400	2,4	3,250	
Greasy Creek	Leslie	900	4,11

Peabody WMA, Rob's Pond	11	1,500	1,11
Pikeville City Lake	24	2,500	3,11
Sandy Watkins Park Lake	3	1,000	2,10
Wood Creek Lake	672	8,000	2,10

* Total trout includes brown trout

OTHER AREAS

FORT CAMPBELL and FORT KNOX

Little West Fork and Fletchers Fork on Fort Campbell (Tennessee portion) and Otter Creek on Fort Knox (Bullitt, Meade and Hardin counties) military reservations are stocked with rainbow or brown trout. Special fishing regulations apply and a post fishing permit is required in addition to a valid Kentucky fishing license and trout permit. Contact Community Recreation Division, Hunting and Fishing Unit, Fort Campbell, KY 42223-5000; phone: (270) 798-2175 or Hunt Control Office, Fort Knox, KY; phone: (502) 624-2712.

CATCH and RELEASE BROOK TROUT STREAMS

Three streams are catch and release only year-round and only artificial flies and lures with a single hook may be used on these streams:

- Dog Fork – Wolfe County
- Parched Corn Creek – Wolfe County*
- Shillalah Creek – Bell County, outside the Cumberland Gap National Historic Park

* *Parched Corn Creek is stocked annually with brook trout as part of a restoration project.*

Get permission

Many of the streams listed in this guide are located on, or adjacent to, privately owned lands. Anyone entering upon or crossing private property must have the permission of the land owner.

TROPHY FISH

Photo submitted

Sarah Terry caught the state record muskellunge from Cave Run Lake on November 2, 2008. The fish weighed 47 pounds.

TROPHY FISH/MASTER ANGLER AWARD PROGRAM

Anglers who catch, by pole and line, any **one** fish meeting the length requirements below may qualify for the Trophy Fish/Master Angler Awards Program. Anglers who catch **three different species** of trophy status are eligible for the Master Angler Award. There is no time limit in which the three different species must be caught, but each catch must be documented and registered as a trophy fish with Kentucky Fish and Wildlife since the program began in 1987. Species counted toward a Master Angler Award may not be duplicated.

Anglers qualifying for a Kentucky Trophy Fish Award will receive a collectable Kentucky Trophy Fish lapel/hat pin. An angler may only receive one pin per year, but each Trophy Fish caught counts toward the Master Angler Award.

All applications for Trophy Fish/Master Angler Awards and associated photos must be received within 60 days

ELIGIBLE SPECIES	Minimum length
Blue Catfish	35"
Bluegill	10"
Bowfin	25"
Brook Trout	15"
Brown Trout	20"
Bullhead Catfish	14"
Common Carp	35"
Chain Pickerel	24"
Channel Catfish	28"
Crappie	15"
Flathead Catfish	35"
Freshwater Drum	25"
Gar	40"

of the catch to qualify for a lapel/hat pin. The department may use submitted photos for promotional purposes.

Anglers must register at fw.ky.gov to receive their lapel/hat pin and Trophy

Hybrid Striped Bass	23"
Kentucky (Spotted) Bass	16"
Largemouth Bass	23"
Muskellunge	40"
Rainbow Trout	20"
Redear Sunfish	10"
Redbreast Sunfish	10"
Rock Bass	10"
Sauger	18"
Saugeye	23"
Smallmouth Bass	20"
Striped Bass	36"
Walleye	25"
White Bass	16"
Yellow Perch	10"

Fish Certificate. Pins will be mailed after Feb. 1 the following year.

Complete details are available by calling 1-800-858-1549 or online at fw.ky.gov.

STATE RECORD FISH PROGRAM

To qualify for the state record fish program, fish must be caught in Kentucky waters by a rod and reel or pole and line only. Fish taken on commercial gear, by trotlines, limb lines, jugging, gigging, snagging, by hand or bow fishing are not eligible.

Fish need to be weighed on a scale certified for legal trade and witnessed by three people who must sign the record application. The intact fish (not filleted, gutted or cut up) must be identified in person by KDFWR fishery biologist or the manager of Wolf Creek National

Fish Hatchery.

Applications for the state record fish program are available by calling 1-800-858-1549 or online at fw.ky.gov or from your District Fisheries Office listed below.

PIKE				
Chain Pickerel	5 lbs. 6 oz.	Tommy Thompson, Bardwell, KY	Forked Lake, Carlisle Co.	07/08/83
Grass Pickerel	10 oz.	Gerald Gallagher, Louisville, KY	Wilson Creek, Bullitt Co.	07/17/89
Muskellunge	47 lbs.	Sarah Terry, Mt. Sterling, KY	Cave Run Lake	11/02/08
Northern Pike	10.53 lbs.	Derek Cowden, Corbin, KY	Laurel River Lake	10/29/06
Tiger Muskie (Muskellunge Hybrid)	19 lbs. 9 oz.	Wayne Joslin, Winchester, KY	Private lake, Clark Co.	04/25/07
SUNFISH				
Bluegill	4 lbs. 3 oz.	Phil Conyers, Madisonville, KY	Strip Mine Lake, Hopkins Co.	08/05/80
Crappie (White or Black)	4 lbs. 14 oz.	Penny Hopper, Crofton, KY	Watershed Lake, Christian Co.	05/08/05
Green Sunfish	1 lb. 9.44 oz.	David Gibson, Hawesville, KY	Farm pond, Hancock Co.	05/20/13
Longear Sunfish	13 oz.	Anthony Lynch, Salyersville, KY	Strip Mine Pond, Magoffin Co.	06/23/94
Redbreast Sunfish	14 oz.	Tim King, Stearns, KY	Marsh Creek, McCreary Co.	09/01/97
Redear Sunfish	3 lbs. 1 oz.	Betty Truax, Finchville, KY	Farm pond, Shelby Co.	05/24/82
Rock Bass	1 lb. 10 oz.	H.S. White, Cadiz, KY	Casey Creek, Trigg Co.	05/26/75
Warmouth	1 lb. 6.2 oz.	John Hoover, Louisville, KY	Private pond, Jefferson Co.	07/21/03
TROUT				
Brook Trout	3.65 lbs.	Wyatt Hoefer, Louisville, KY	Cumberland River	03/15/15
Brown Trout	21 lbs.	Thomas Malone, Crofton, KY	Cumberland River	04/30/00
Lake Trout	5 lbs. 5 oz.	John McDonogh, Jeffersontown, KY	Cumberland River	04/04/83
Rainbow Trout	14 lbs. 6 oz.	Jim Mattingly, Somerset, KY	Cumberland River	09/10/72

Note: Line class records are not maintained by the KDFWR.

* All tackle world record

BOATING

BOATING REGULATIONS

INTRODUCTION

This publication provides basic information for most boaters and answers the most commonly asked questions. However, it is not all inclusive. For further information, please contact the Division of Law Enforcement, #1 Sportsman's Lane, Frankfort, KY 40601 or call 1-800-858-1549.

For emergencies, officers may be contacted by dialing 1-800-252-5378, or local law enforcement agency or through the nearest Kentucky State Police post. One may use marine channel 16 to contact a local marina.

REGISTRATION

(301 KAR 6:001, 6:010)

All mechanically powered vessels used primarily in this state must have a Kentucky registration. Boats are registered at the county clerk's office. Persons may register in the county of their residence or the county of principal use. Boat registrations expire April 30 each year.

Boats registered in other states may be used for up to 60 consecutive days in Kentucky without registering here.

All boats operated in Kentucky must have the registration certificate on board. Boats that are rented from a marina or boat livery must have a lease agreement on board.

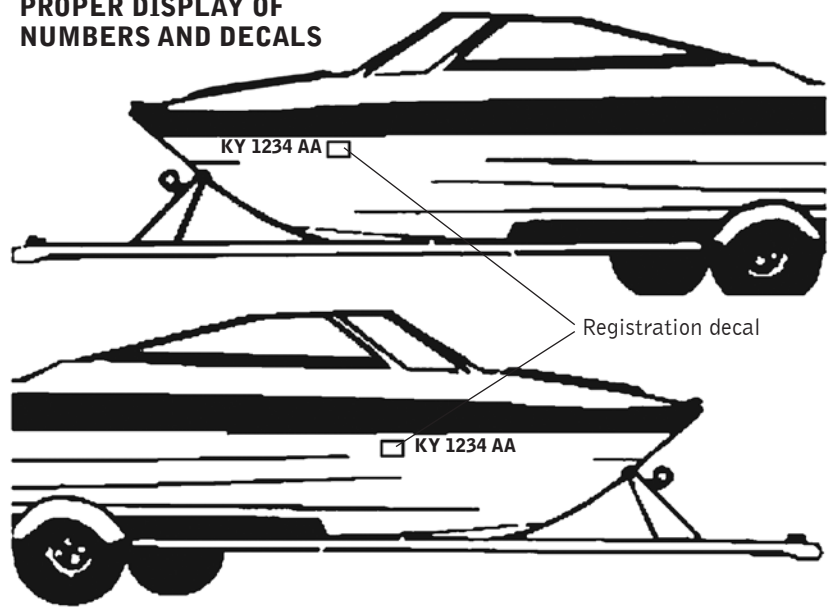

DISPLAY OF NUMBER and DECAL

Once boats are assigned a registration number and decals, they must be displayed correctly. The number assigned, and no other, shall be displayed on the bow, or forward half, of each side of the vessel, read from left to right, and in a position to be distinctly visible. The letters and numbers must be of a plain block design, at least three (3) inches in height, and of a color that will provide maximum contrast to the background (light numbers on a dark hull or vice versa).

There must be a letter size space be-

BOAT REGISTRATION FEES	
Class A Vessels (less than 16' in length)	\$21.00
Class 1 Vessels (16' to less than 26' in length)	\$40.00
Class 2 Vessels (26' to less than 40' in length)	\$50.00
Class 3 Vessels (over 40' in length)	\$65.00
Inboard boats (regardless of size)	\$43.00
Boats propelled by an electric (trolling) motor only	\$10.00
The above costs do not include property taxes, clerks fees, titling fees or any other applicable charges. (301 KAR 6:005)	

PROPER DISPLAY OF NUMBERS AND DECALS

tween letter and number groups:

Correct: KY 1234 AA
Incorrect: KY1234AA

Registration decals are to be placed within six inches behind (aft) and in line with the registration number. Upon renewal every year, old registration decals are to be removed and the current ones applied.

TRANSFER, DESTRUCTION OR ABANDONMENT

When ownership of a currently registered boat changes, it is the respon-

sibility of the purchaser to take the endorsed title to the county clerk and have the boat transferred into the name of the new owner. This procedure must be done upon completion of the transaction.

Whenever a vessel is transferred, the seller shall, within 15 days, give the county clerk notice of the transfer of his interest in the vessel.

Whenever a vessel is destroyed or abandoned, the owner shall, within 15 days, give notice to the county clerk to terminate the registration. The owner shall remove the numbers and decals from the vessel.

BOAT, MOTOR and LAKE USAGE

Bordering waters

Kentucky boaters on the Ohio River may also be subject to the laws of Ohio, Indiana, Illinois and the U.S. Coast Guard.

(301 KAR 1:012, 1:015)

Maximum horsepower limits and other boat motor and lake usage regulations apply on many small public fishing lakes. (For boat size limits see box on this page.)

MOTOR SIZE RESTRICTIONS:

Operation of electric or internal combustion motors prohibited: Lake Chumley, Dennie Gooch Lake and Kingdom Come Lake.

Operation of internal combustion motors prohibited – electric trolling motor only: Bert T. Combs Lake, Briggs Lake, Carpenter and Kingfisher lakes, Carter Caves State Park Lake (a.k.a. Smoky Valley Lake), Lebanon City Lake (a.k.a. Fagan Branch Lake), Fishpond Lake, all Kentucky River WMA Boone Tract lakes (except Benjy Kinman Lake), Lincoln Homestead State Park Lake, McNeely Lake, Marion County Lake, Martin County Lake, Metcalfe County Lake, Mauzy Lake, Mill Creek Lake, Lake Reba, Spurlington Lake, Washburn Lake, Pikeville City Lake.

AGE RESTRICTIONS

A person must be 12 years or older to operate a motorboat (including personal watercraft) over 10 horsepower on Kentucky public waters. A person 12-17 years old shall possess a Kentucky Safe Boating Certificate Card or a certificate showing successful completion of a NASBLA approved boater education course. For information about Kentucky's Boater Education program, call 1-800-858-1549 or on the internet, log on to fiv.ky.gov. Persons under 12 years of age must wear a personal flotation device (lifejacket) while in the open portion of a boat that is under way.

Motors larger than 10 HP must operate at idle speed at all times on Beaver Lake, Boltz Lake, Bullock Pen Lake, Corinth Lake, Cranks Creek (Herb Smith) Lake, Elmer Davis Lake, Kincaid Lake, Martins Fork Lake and Shanty Hollow Lake.

Idle Speed Only: Ballard WMA lakes, Benjy Kinman Lake, Boatwright WMA lakes, Beulah Lake, Carnico Lake, Greenbo Lake, Panbowl Lake, Wilgreen Lake and all Peabody WMA lakes including Goose, Island and South lakes.

Note

Legal-size boats exceeding the maximum horsepower restriction for a particular lake may operate their boat with an electric trolling motor only.

WATER-SKIING

Water skiing is the act of riding in or upon water skis, kneeboards, wakeboards, tubes or similar devices propelled by a boat's wake or while riding on or in a boat's wake directly behind a vessel that is under way. This applies whether the person is holding a rope attached to the boat or not. Water-skiing is only allowed between sunrise and sunset. Additionally, it is illegal to manipulate skis, surfboards, etc. while intoxicated or under the influence of any other substance that impairs one's operating ability.

Both the operator and skier should be alert to the areas of a lake or river marked as "no ski." Persons shall not ski within 100 feet of a commercial boat dock, a moorage harbor or a swimming area or within 2,000 feet of a lock or dam.

Skiers who ski too close to other boats, docks and obstructions are showing poor judgement. Many of the complaints officers receive while patrolling the water are those about skiers skiing too close.

Persons being towed by any device must wear a Type I, II or III PFD. Boats (including personal watercraft) towing skiers must have, in addition to the operator of the boat, an observer 12 years of age or older or a wide angle rearview mirror mounted so that the operator can check on the skier but still give full attention to traffic ahead. There must be adequate seating for all riders.

Boats towing kites and similar airborne devices must:

- Have, in addition to the operator, an observer 12 years or older (mirror will not suffice),
- Stay 500 feet from commercial docks

ON ALL KENTUCKY FISH & WILDLIFE-OWNED/ MANAGED LAKES:

- Boaters must use idle speed (slowest speed possible to maintain maneuverability of a boat) when passing another boat with an occupant actively engaged in fishing.
- The centerline of boats on the water cannot exceed 22 feet as measured on deck or bow to stern on all lakes owned or managed by Kentucky Fish and Wildlife, except on Guist Creek Lake where monohull boats with a centerline of 24 feet and 8 person capacity are allowed.
- On Cedar Creek Lake, Lake Beshear and Lake Malone only, pontoon boats may have decking and pontoons up to 30 feet; on Guist Creek Lake pontoon max length is 24 feet. There is no size restriction on canoes.
- Houseboats are not permitted.
- Personal watercrafts are prohibited on Cedar Creek Lake.
- Swimming is permitted only in designated areas when a qualified lifeguard is on duty.
- Skin or scuba diving is not permitted.
- Boat motors without underwater exhaust are not permitted.

Water-skiing permitted as designated by signs on Guist Creek Lake and Lake Beshear from 10:00 a.m. to sunset beginning the third Thursday in May ([May 18, 2023](#)) through September 30. Similarly, water-skiing is permitted on Lake Malone beginning the third Thursday in May ([May 18, 2023](#)) through October 31. Water-skiing and tubing are prohibited on Cedar Creek Lake.

- and ramps,
- Limit the tow rope to 150 feet or less,
- Have no more than two persons being towed.

PERSONAL WATERCRAFT

A “personal watercraft” (PWC) means a vessel which uses an internal combustion engine to power a jet pump for its primary source of propulsion and is designed to be operated by a person sitting, standing or kneeling on the vessel rather than by a person sitting or standing inside the vessel. In addition to being governed by the same laws that apply to all boats, the following laws apply to personal watercraft:

- Personal watercraft can only be operated between sunrise and sunset.
- Personal watercraft without self-circling capability must have a lanyard-type engine kill switch attached to the operator when the craft is underway.
- Operators and passengers must wear a U.S. Coast Guard-approved personal flotation device (PFD.)

Because of their small size and low profile, operators of PWCs should exercise defensive driving. These craft are highly responsive and capable of quick turns. In fact, this is part of the fun of their operation. However, this kind of operation is reckless if done in congested areas of boat traffic.

SKIN and SCUBA DIVING

(301 KAR 1:410, 6:030)

Skin or SCUBA diving is prohibited in all lakes owned or managed by the Kentucky Department of Fish and Wildlife Resources, except during emergencies, on Greenbo Lake and during salvage operations when the diver has written permission from the regional di-

DIVERS DOWN FLAGS

Boaters should exercise caution

Alpha Flag (left): Blue with a silver stripe, displayed on vessel with restricted mobility because of diving operation. **Diver's Flag** (right): Red flag at least 12" x 12" with diagonal stripe at least three inches wide, displayed where diver is submerged.

rector or local wildlife and boating law enforcement officer assigned to the specific body of water in which the diving is to take place.

Persons diving or submerging with the aid of a mechanical breathing apparatus in an area where boats might be are required by law to display the diver's flag.

This flag should be put on a buoy, boat or other floating platform so boaters will readily see it. Approaching boats must stay outside of a 100-foot radius of the flag. Divers must surface within a 50-foot radius unless there is an emergency.

Divers shall not dive in established traffic lanes nor interfere with anyone fishing unless emergency operations are in progress.

SWIMMING

Swimming in any lake owned or managed by the KDFWR is prohibited except in areas specifically set aside for swimming at which a qualified lifeguard is on duty. Kentucky law specifically prohibits swimming at any boat launch-

ing ramp. Swim in marked and supervised areas. If you are a nonswimmer or a poor swimmer, wear a PFD. Remember, PFDs are not just for boaters.

Refrain from drinking alcoholic beverages when swimming. Alcohol greatly reduces a person's reflexes and strength when in the water. For persons who have had alcoholic beverages a PFD is the difference between life and death.

Persons who wish to swim a long distance should swim parallel to the shore instead of across a river or lake. Boaters don't normally expect to see swimmers in the middle of a lake or river and may run over them.

INFLATABLES

Air mattresses, inner tubes and other similar devices are generally used as recreational items by persons swimming or sunbathing. Use of these items should be restricted to designated or generally recognized swimming areas and not be used in areas of boat traffic. Nonswimmers or poor swimmers should not depend on these devices to save their life. These items can be punctured and lose their buoyancy – wear a PFD!

LITTERING

(KRS 433.757)

The operator of any motorboat or vessel is responsible for any litter thrown into the water. Litter is not only unsightly, but can be dangerous to humans and animals. For example, fishing line discarded into the water can be hazardous to wildlife and to a boat's lower unit. Animals can be ensnared in the line and die. Fishing line caught on a prop shaft can cause seal leaks and lower unit failure. Trot lines and limb lines can snare animals and other anglers in boats.

BOAT OPERATION

RECKLESS OPERATION

The operator of a watercraft is responsible for damage caused by negligent operation. The following actions are considered reckless operation and are therefore against the law:

- weaving through traffic;
- following watercraft too closely that is towing an individual on waterskis, a

- surfboard or any water sport device;
- jumping the wake of another craft in a way that endangers human life, physical safety or property;
- cutting between a boat and the individual(s) being towed by the boat;
- crossing the path of another boat when visibility is obstructed;
- steering toward an object or individual

in the water and turning sharply at close range.

Persons shall not operate a motorboat or personal watercraft within 50 feet of a commercial vessel and its tow that is in operation on a waterway, except if the operator of the commercial vessel has given consent.

When operating in a busy area, re-

duce speed and allow plenty of room for avoidance maneuvers. Even in areas that are not marked as idle speed, excessive wake can still be dangerous. Operators of larger craft should be aware of the wake their vessels are throwing.

IDLE SPEED

Kentucky law defines idle speed as the “slowest speed possible to maintain maneuverability” of a boat. Generally speaking for a properly adjusted boat, this is the speed when a boat is put into gear without advancing the throttle. Wakes can capsize small boats or cause damage to boats moored at marinas and docks. It is extremely important that boat operators be aware of their speed and the resulting wake. Operators are liable for any injuries or damage caused by their boat’s wake.

Boaters may see buoys or signs that say “No Wake.” This means that boats must be at idle speed.

LOCKS AND DAMS

Boaters in Kentucky may encounter lock and dam systems. Generally, these will be on the Green, Ohio and Kentucky Rivers (for the first four locks upstream to Frankfort, KY), but a few impoundments have a lock and dam. Locks are a relatively simple method of raising or lowering boats from one water level to another. If lockage is desired, boaters should signal the lock operator by using the pull chain on each end of the lock or call on marine channel 13. If the lock is not immediately available, boaters should position their vessels a safe distance from the approach chan-

LOW HEAD DAMS ARE DANGEROUS

Low head dams are usually marked with “keep out” buoys or “danger” signs above and below. Low head dams pose an even greater danger due to the fact that they are not as recognizable, especially when water is flowing over them. It is this flow of water over the dam that creates a “boil” on the lower side. Boaters risk almost certain death if caught in this turbulence.

nel to avoid personal injury or damage to their boat from wakes caused by commercial tows entering or leaving the locks. Never moor a vessel in the lock approach channels.

Dams associated with the locks can be very dangerous. Below all locks and dams, boat occupants must wear a personal flotation device (lifejacket) upstream of danger signs and open-diamond buoys or within 150 feet of the downstream lock and dam wall. **Anglers**

should never fish from or stand on lock and dam structures.

Boaters should be alert for these structures. Dams are either conventional or “low head” type. Conventional dams are easily recognizable with their spillways and power installations.

RESTRICTED ZONES

(KAR 6:030)

Kentucky law prohibits boats from operating within restricted areas as posted above or below navigation, power generating or flood control dams.

No fish is worth risking your life. Be aware of trespassing and danger zones. Wear a PFD when entering any area above or below a dam.

OPERATING UNDER THE INFLUENCE

(KRS 235.240)

It is against the law to operate a boat or vessel including personal watercraft, manipulate water skis, surfboard or other similar device while intoxicated or under the influence of any other substance that impairs one’s driving ability. Any person who operates a vessel on Kentucky waters is considered to have given consent to a test or tests to determine his alcohol concentration or the presence of other drugs. The tests shall be administered at the direction of a law enforcement officer who has probable cause to believe that the operator is intoxicated. An operator refusing the test shall be in violation of the law and subject to the same penalties.

Anyone who operates a boat, PWC,

SMALL CRAFT PRECAUTIONS

Statistics show that approximately half the boat-related fatalities involve boats that are less than 16’ in length. These boats are usually unstable and can tip over, throwing the occupants overboard. Also, these boats can be easily swamped, especially if used on a large body of water where the wind can cause high waves. When using such craft, be aware of the hazards. Wearing a personal flotation device (PFD) is strongly recommended.

BLOOD ALCOHOL CONTENT CHART

Body Weight (in pounds)	Number of Drinks in a Two Hour Period 12 oz. beer = 5 oz. wine = 1 oz. 80 proof liquor									
100	1	2	3	4	5	6	7	8	9	
120	1	2	3	4	5	6	7	8	9	
140	1	2	3	4	5	6	7	8	9	
160	1	2	3	4	5	6	7	8	9	
180	1	2	3	4	5	6	7	8	9	
200	1	2	3	4	5	6	7	8	9	
220	1	2	3	4	5	6	7	8	9	
240	1	2	3	4	5	6	7	8	9	
BAC to .05% - Be careful. Loss of judgement and coordination.										
BAC .05% to .07% - Abilities impaired. Chance of accident increased.										
BAC .08% and over - Do not operate a boat. High risk of accident, subject to arrest.										

skis, surfboard or similar device while intoxicated with a blood alcohol level of 0.08 or higher or while under the influence of any substance that impairs the operator's driving ability may be subject to fines and possible jail time if convicted.

DRINKING IN PUBLIC and PUBLIC INTOXICATION

(KRS 222.202)

Kentucky law specifically prohibits the drinking of alcoholic beverages in public places (this excludes establishments licensed to sell such beverages) and the waterways of this state are considered public places.

Further, in a public place, persons who are manifestly under the influence

of alcoholic beverages to the extent that they may unreasonably annoy or endanger themselves or others shall be subject to arrest.

PROHIBITED RIDING

Approximately half of boat related fatalities result from falls overboard. When operating a motorboat above idle speed the operator or passengers shall not ride on an enclosed bow, outside protective railing of a pontoon or houseboat, on a seat which extends six inches above the plane of the gunwales, nor shall they ride on the sides, back, engine cover, back of seat, or any other obviously dangerous position which could lead to falling overboard.

RULES OF THE ROAD

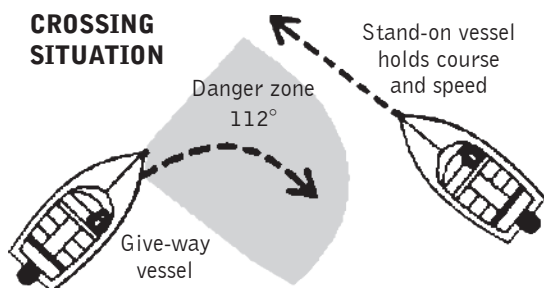

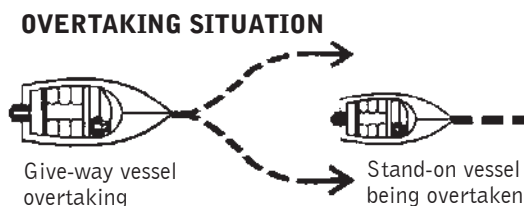

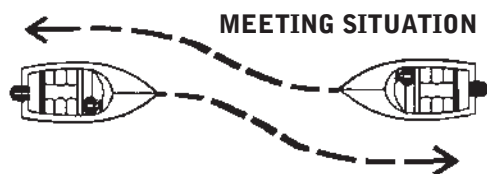

On the water there are no painted lines to mark where boats must go. In order to provide an orderly flow of traffic, there are "rules of the road" that boaters should learn and practice.

Boaters on the water encounter three situations: meeting, crossing and overtaking. The following diagrams should give a clear explanation of who has the right of way (stand-on vessel) and who must give way (give-way vessel). However, in an emergency, all ves-

sels must give way to avoid a collision. At night, a boat's navigation lights give an indication of right of way (see page 36).

The above rules cover most traffic situations, but a few other situations exist. Sailboats under sail have the right of way except when they are the overtaking vessel. Rowboats and paddle powered boats have the right of way over motorboats. All recreational craft should yield the right of way to large commercial craft (towboats, barges). Such vessels have large blind spots and will be unable to see smaller crafts in front of them.

On small or narrow bodies of water, all traffic should stay to the right of mid-channel and not "cut corners".

BUOYS

Buoys are the most common types of navigational aid, and they serve the same purpose as traffic signs on the highway. Failure to obey buoys can result in enforcement action, or worse, a loss of property or lives. When boating in unfamiliar waters, slow down and look for any regulatory or channel-marking buoys. Remember that it is possible for these buoys to drift out of position. Kentucky law prohibits from tying up to any buoy except designated mooring buoys.

UNIFORM STATE WATERWAY MARKING SYSTEM

Boats Keep Out!

Nature of danger may be placed outside crossed diamond, e.g., waterfalls, swim areas or rapids.

Danger!

Nature of danger may be indicated inside the diamond shape, e.g., rocks, reefs, dams, construction or snags.

Caution!

Controlled Areas as indicated in circle, e.g., speed limit, no fishing, no anchoring, ski-only, slow-no wake, no ski or no prop boats.

Information

Tells directions, distances, places such as food, repair, supplies and other non-regulatory messages.

Obstruction Marker

Do not pass between shore and buoy.

Mooring Buoy

White with reflective blue band. May have white light or reflector.

Channel Marker

Keep buoy on right facing upstream.

Channel Marker

Keep buoy on left facing upstream. Marker may be green or black.

REQUIRED EQUIPMENT

(301 KAR 6:020 Sect. 4); KRS 235.203

For each person onboard a vessel, federal as well as state law requires a Type I, II, or III personal flotation device (PFD) on all boats. Boats 16 feet and over, except canoes and kayaks, must also carry one Type IV throwable PFD. Operators and passengers of personal watercraft must wear a PFD. Persons under 12 years of age must wear a PFD while in the open part of a boat that is under way.

PERSONAL FLOTATION DEVICES

Kentucky Fish and Wildlife strongly recommends wearing PFDs while boating, especially by children and nonswimmers. In order for PFDs to be legal, the following requirements must be met:

- **Coast Guard approved:** A label with an approval number will be on the PFD. Check the label on inflatable types of PFDs. Some older models meet Coast Guard approval only when worn.
- **Serviceability:** All straps, buckles, zippers, stitching, must be intact and the fabric should not be rotted. Some PFDs contain airtight bags filled with a fibrous material. Squeeze the bags. If air escapes, destroy the PFD and replace it with a new one.
- **Size:** PFDs must fit properly. Read the label to determine size and weight restrictions.
- **Accessibility:** PFDs must be readily available for immediate use by all occupants of a vessel. It is advisable for each person to try on their PFD before departing so that they are familiar with the fastening devices and to assure it is adjusted to the person. PFDs shouldn't be stored in the plastic bags in which they were sold. This limits access and can promote rotting.

FIRE EXTINGUISHERS

Kentucky law requires that all boats equipped with a petroleum product (gasoline, kerosene, propane, etc.) consuming device (engines, lanterns, stoves, etc.) shall have a hand portable fire extinguisher in serviceable

TYPES OF PFDs

Personal Floatation Devices (PFDs) will now have a new style of label on the inside. Going forward, these devices will be referred to as either "throwable" or "wearable" and have a performance category indicated by an icon instead of the Type I, II, III, IV and V used previously. It will take many years for the older style of labels to be completely phased out and both styles will be in stores, on boats and in use for many years to come. Any PFD with the old label that is still serviceable will continue to be legal for use.

TYPE I (above) and TYPE II (right)

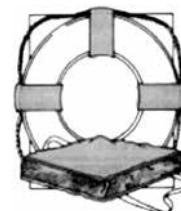

These devices are designed, when worn properly, to turn a person who is unconscious and face down in the water to a vertical or slightly backward face up position.

TYPE III

These are special purpose devices that include ski vests, fishing vests and float coats. They are not designed to turn a person's face out of the water, but they do have the same buoyancy as the type I and II PFDs and are more comfortable to wear.

TYPE IV

These PFDs are designed to be thrown to persons in the water who can hold on to them until help arrives. They are not designed to be worn, and could cause drowning if worn on the back.

TYPE V

These special use devices are to be worn for specific activities that will be described on the PFD's label. To be effective, Type V PFDs must be used according to these specifications, and many must be worn at all times in order to qualify as a PFD.

condition and located for immediate use. Disposable (non-rechargeable) dry chemical fire extinguishers must be removed 12 years after the date of manufacture. These fire extinguishers generally have their year of manufacture stamped on the bottom or next to its UL label. A rechargeable extinguisher does not need removal from service after 12 years, but must be maintained annually by a technician. The best fire protection is well maintained equipment and proper safety habits.

MINIMUM NUMBER OF B-1 FIRE EXTINGUISHERS

Vessel/size	No Fixed Fire Extinguisher System	Fixed Fire Extinguisher System Installed
Class A	1	0
Class 1	1	0
Class 2	2	1
Class 3	3	2

MARINE FIRE EXTINGUISHER CLASSIFICATION

Coast Guard Classes	UL Listing	Foam (gals.)	CO2 (lbs.)	Dry Chemical (lbs.)
B-I	5B	1.25	4	2
B-II	6B*	2.5	15	10
—	10B	none	10	2.5
—	20B	2.5	50	4.5 - 6

* UL rating 6B is no longer used.

Above: foam, CO2 and dry chemical fire extinguishers

BACKFIRE FLAME ARRESTERS

Internal combustion engines may backfire. To safeguard against fire, all motorboats with enclosed engines and engines originally equipped with a flame arrester, (except outboards and diesels) must have an approved carburetor backfire flame arrester system on each carburetor.

VENTILATION

Most fires on a boat are due to ignition of fuel vapors. Gasoline is heavier than air. It can collect in the bilge or engine compartment and any spark can ignite it. Therefore, Kentucky law requires boats to have adequate ventilation of areas where flammable vapors can accumulate.

Most boats are equipped with adequate ventilation systems when they come from the factory. Usually, this is a combination of active and passive systems. Active systems use electrical blowers to exhaust flammable vapors from the bilge and other areas. Passive systems are ducts and cowls that ventilate areas when the boat is moving. Almost all inboards will have an electrical blower installed in the engine compartment. Operators should run the blower for several minutes before starting the engine. If the blower is inoperable it should be repaired or replaced immediately. Many boat fires take place after refueling, so care should be taken to avoid spilling fuel in the vessel.

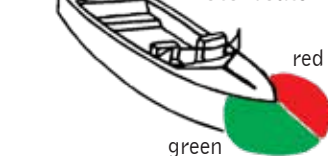

NAVIGATION LIGHTS

All vessels when underway between sunset and sunrise must display proper navigation lights. Navigation lights on boats are restricted to the colors of red, green and white.

From sunset to sunrise in an area where other boats navigate, all vessels at anchor shall display a steady white light visible 360 degrees at all times. Manu-

DISPLAY OF NAVIGATION LIGHTS

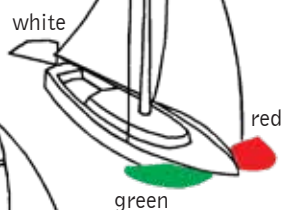

white
Class A and Class 1 motorboats

white
Class 2 and 3 motorboats

Class 2 and 3 sailboats

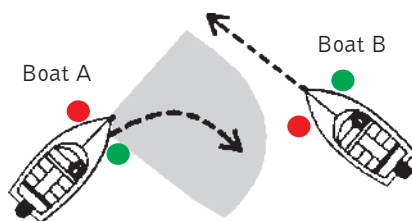

white
Class A and Class 1 sailboats

ally propelled vessels shall carry a white light to display in sufficient time to avoid a collision.

The purpose of the red and green navigation lights at night is to show if your boat is in a meeting, crossing or overtaking situation. The red and green lights must be displayed from sunset to sunrise whenever a boat is underway. They will give some indication of the size and speed of vessels. The red and green bow lights are especially helpful in determining right of way in crossing situations. In the diagram below, boat B sees the green bow light of boat A, and has the right of way to continue on course. Boat A sees the red bow light of boat B and must stop or pass astern of boat B. In special circumstances, such as towing, refer to 33 CFR 83 (Inland Navigation Rules).

SIGNALING DEVICES

Kentucky law states that all boats 16 feet in length or longer must have a hand-, mouth- or power-operated signaling device capable of producing a blast for two seconds or more and audible for one-half mile for class 1 vessels, one mile for class two vessels and one

and one-half miles for class three vessels. This does not exempt vessels from any other signaling device as may be required by federal law when operating on navigable waters of this state.

Navigation law also requires the following maneuvering and warning signals:

- One long blast: Warning signal (coming out of slip)
- One short blast: Pass on my port side (left)
- Two short blasts: Pass on my starboard (right)
- Three short blasts: Engines in reverse
- Five or more blasts: Danger signal

MUFFLING DEVICES

Kentucky law requires all boats to be equipped with effective exhaust muffling devices. Usually, boats and motors that come direct from the manufacturer are adequately muffled. However, there may be instances of high performance boats that have been modified by the owners that are not in compliance with the law. Additionally, there may be federal and/or local regulations restricting boats with an over-the-transom exhaust system.

Scan this QR code to find Boater Education Courses!

MARINE SANITATION DEVICES (KRS 235:420)

Motorboats with marine toilets are not allowed on public waters unless the toilet is equipped with a Type I, II or III marine sanitation device (MSD.) Type I

and II MSDs chemically treat sewage. Type III MSDs are holding tanks for raw sewage.

Raw sewage shall not be discharged in any public waters. Treated sewage may be discharged from a marine toi-

let into legal "discharge" waters. Those waters are Barkley and Kentucky lakes, Lake Cumberland and any of the major river systems. Type I and II MSDs must be sealed or locked while the vessel is on "no discharge" waters.

ACCIDENTS

(301 KAR 6:030, KRS 235.250)

REPORTING REQUIREMENTS

If any of the following conditions occur as the result of a boating accident, collision, etc., a Boating Accident Report must be made:

- death or disappearance of a person;
- injury to a person which requires medical attention or incapacitates that person for 24 hours or more;
- loss or damage to property (including the vessel) in an amount of \$500 or more.

The operator of a vessel is required to complete the report. If the operator is not capable of filing the report and is not the owner of the vessel, then the owner shall be required to fill out a boating accident report.

Note 1: Even if a Law Enforcement Officer fills out a boating accident report, this does not exempt the operator from filing a report.

Note 2: The reports filed by operators of vessels are confidential and are not available as public record (KRS 235.250). However, reports made by officers are available for review.

Accidents involving death or serious injury must be submitted to the Division of Law Enforcement within 48 hours. All others must be submitted within five days.

Boating accident report forms are available from wildlife and boating law enforcement officers or by writing to Kentucky Department of Fish and Wildlife Resources, Division of Law Enforcement, #1 Sportsman's Lane, Frankfort, KY 40601, calling 1-800-858-1549, or online at fw.ky.gov.

RENDERING AID

An operator of a vessel involved in a boating accident shall render aid to other persons and vessels as long as it doesn't endanger his crew, passengers or vessel. Also, the operator of any vessel involved in an accident shall give his name, address, and identification of his vessel, in writing, to any person that is injured or to the owner of any property that is damaged.

FIRST AID

This section includes suggestions that may save a life. First, boats should be equipped with a first aid kit. This kit should be able to provide treatment for burns, insect bites, cuts and abrasions.

Second, boaters should take a first aid course so they know how to treat victims with sprains, broken bones and shock.

Third, boaters should know how to perform Cardiopulmonary Resuscitation (CPR) in case they encounter victims of near drowning, heart attack or trauma from boating accidents. In many cases, emergency medical help is further away on the water than on land. Interested persons should contact their local chapter of the American Red Cross for information on first aid and CPR training.

HYPOTHERMIA

Four elements cause hypothermia – cold, moisture, wind and exhaustion. Symptoms of hypothermia are uncontrollable shivering, slurred speech, stumbling, blue skin, decreased heart and breathing rate, weak pulse and unconsciousness.

All hypothermia symptoms demand immediate attention. As soon as possible, a victim of hypothermia should be brought out of the weather. Wet clothing should be replaced with dry clothing. If the victim shows mild symptoms, get them near a fire or other heat source or put them in a warm sleeping bag. For victims with advanced symptoms of hypothermia, seek immediate medical attention. Never give alcohol to the victim.

The best cure for hypothermia is prevention. Monitor weather reports when you plan to be in the outdoors. Dress in layers and always have foul-weather gear handy.

FATIGUE

Boaters should be aware of the factors that induce fatigue while on the water. The wind, sun, engine noise and constant motion of the boat can greatly reduce a person's reaction time.

Kentucky Afield
MAGAZINE

Kentucky Afield, the official publication of the Kentucky Department of Fish and Wildlife Resources, offers you practical tips to have a better day in the woods or on the water. The bonus calendar issue gives you season dates and provides you monthly tips about fishing and the natural world.

All this for just \$10 a year, or \$18 for two years.

From the Game Warden's Desk

True Stories from a retired Kentucky Game Warden

The background of the entire page is a stylized illustration of the book cover for 'From the Game Warden's Desk' by Jeff Finn. The cover features a wooden desk with various items on it: a flashlight, a revolver, a game warden's badge, and a small figurine. The title 'From the Game Warden's Desk' is written in a serif font at the top, and the author's name 'Jeff Finn' is at the bottom. The illustration is in a warm, painterly style with a color palette of browns, yellows, and reds.

"A very entertaining book. I could not put it down; I would recommend it to all hunters and fishermen. It is like sitting by a campfire telling stories; all will love it."

"You won't be sorry for purchasing this book! I love Jeff Finn's style of writing. These true stories from a game warden have you on the edge of your seat as if you were there and then with his humor has you laughing out loud!"

If you like to read true stories of game wardens chasing poachers in Kentucky, you can get a book of 57 True Stories from Jeff Finn, a retired KY Game Warden.

For \$12.99, there are paperback books available on Amazon, also available on Kindle and Audiobook. Search Amazon for the book title "From the Game Warden's Desk" or search for the author's name, "Jeff Finn."

REPORT WILD PIG SIGHTINGS, DAMAGE, OR ILLEGAL RELEASE

Wild pigs threaten Kentucky's hunting traditions. When wild pigs move in, deer and turkey move out. Wild pigs also hog all the acorns in the fall.

Hunting is not the solution. Shooting into a group of pigs may remove 1 or 2, but it scatters the rest, spreading them further throughout the landscape.

Trapping is the best method of eradication. Trapping catches the whole group at once.

Wild pigs must be eradicated from Kentucky.

Visit [FW.KY.GOV/WILDPIGS](https://www.fw.ky.gov/wildpigs) to report wild pig sightings, damage, or illegal release.

YOUR LICENSE DOLLARS AT WORK.

In the past five years, Kentucky Fish and Wildlife employees and community volunteers have placed approximately 21,000 fish attractors at nearly 900 sites to provide better fishing opportunities for anglers. Your purchase of fishing and hunting licenses helps make this possible.
